ASSA ABLOY is a Swedish public limited liability company, with registered office in Stockholm, Sweden, whose series B share is listed on the NASDAQ OMX Stockholm.

The Group’s corporate governance is based on the Swedish Companies Act, the rules and regulations of NASDAQ OMX Stockholm and the Swedish Code of Corporate Governance, as well as other applicable external laws, regulations and recommendations, and internal rules and regulations.

This Corporate Governance Report has been prepared as part of ASSA ABLOY’s application of the Swedish Code of Corporate Governance. ASSA ABLOY reports no deviations from the Swedish Code of Corporate Governance for 2012.

ASSA ABLOY’s objective is that its activities should generate good long-term returns for its shareholders and other stakeholders. An effective scheme of corporate governance for ASSA ABLOY can be summarized in a number of interacting components, which are described below.

Shareholders
At year-end ASSA ABLOY had 17,591 shareholders (18,697). The principal shareholders are Investment AB Latour (9.5 percent of the share capital and 29.5 percent of the votes) and Melker Schörling AB (3.9 percent of the share capital and 11.5 percent of the votes). Foreign shareholders accounted for around 68 percent (64) of the share capital and around 46 percent (44) of the votes. The ten largest shareholders accounted for around 38 percent (38) of the share capital and around 58 percent (58) of the votes. For further information on shareholders, see page 123.

A shareholders’ agreement exists between Gustaf Douglas, Melker Schörling and related companies and includes an agreement on right of first refusal if any party disposes of Series A shares. The Board of ASSA ABLOY is not aware of any other shareholders’ agreements or other agreements between shareholders in ASSA ABLOY.

Share capital and voting rights
ASSA ABLOY’s share capital amounted at year-end to SEK 370,858,778 distributed among 19,175,323 Series A shares and 351,683,455 Series B shares. The total number of votes was 543,436,685. Each Series A share carries ten votes and each Series B share one vote. All shares have a par value of SEK 1.00 and give shareholders equal rights to the company’s assets and earnings.

Repurchase of own shares
Since 2010 the Board has requested and received a mandate from the Annual General Meeting to repurchase and transfer ASSA ABLOY shares. The aim has been to be able to adapt the company’s capital structure and thereby contributing to increased shareholder value, to be able to exploit acquisition opportunities by fully or partly financing company acquisitions with its own shares, and to secure the company’s long-term incentive programs. The 2012 Annual General Meeting authorized the Board to repurchase, during the period until the next Annual General Meeting, a maximum number of Series B shares so that after each repurchase ASSA ABLOY holds a maximum 10 percent of the total number of shares in the company.

ASSA ABLOY holds a total of 600,000 (400,000) Series B shares after repurchase to secure the company’s undertakings in connection with the company’s long-term incentive programs (LTI 2010, LTI 2011 and LTI 2012). These shares account for around 0.2 percent (0.1) of the share capital and each share has a par value of SEK 1.00. The purchase consideration amounted to SEK 103 M (65).

Of the above shares, 200,000 (100,000) Series B shares were repurchased in 2012. These account for around 0.05 percent (0.03) of the share capital and each share has a par value of SEK 1.00. The purchase consideration amounted to SEK 38 M (17).

Share and dividend policy
ASSA ABLOY’s Series B share is listed on the NASDAQ OMX Stockholm Large Cap list. At year-end ASSA ABLOY’s market capitalization amounted to SEK 90,082 M. The Board’s objective is that, in the long term, the dividend should be equivalent to 33–50 percent of income after standard tax, but always taking into account ASSA ABLOY’s long-term financing requirements.

General Meeting
Shareholders’ rights to decide on the affairs of ASSA ABLOY are exercised at the General Meeting. Shareholders who are registered in the share register on the record date and have duly notified their intention to attend are entitled to take part in the General Meeting, either in person or via a proxy. Resolutions at the General Meeting are normally passed by simple majority. For certain matters, however, the Swedish Companies Act prescribes that a proposal should be supported by a higher majority. Individual shareholders who wish to have an issue raised at the General Meeting can apply to ASSA ABLOY’s Board of Directors at a special address published on the company’s website well before the Meeting.

The Annual General Meeting should be held within six months of the end of the company’s financial year. Matters considered at the Annual General Meeting include among other things: dividend distribution; adoption of the income statement and balance sheet; discharge of the Board of Directors and the CEO from liability; election of board
members and Chairman of the Board of Directors; appointment of the Nomination Committee and auditors; determination of remuneration guidelines for senior management and fees for the Board of Directors and auditors. An Extraordinary General Meeting may be held if the Board of Directors considers this necessary or if ASSA ABLOY’s auditors or extraordinary General Meeting may be held if the Board of Directors

2012 Annual General Meeting

The Annual General Meeting in April 2012 was attended by shareholders representing 60.2 percent of the share capital and 73.0 percent of the votes.

At the Annual General Meeting, Carl Douglas, Birgitta Klasén, Eva Lindqvist, Johan Molin, Sven-Christe Nilsson, Lars Renström and Ulrik Svensson were re-elected as members of the Board of Directors. Jan Svensson was elected as a new member of the Board of Directors. Further, Lars Renström was elected as the new Chairman, and Carl Douglas as Vice Chairman. Gustaf Douglas declined re-election and was thanked for over 17 years’ service as a member of the Board of Directors, including the past six years as Chairman.

The Annual General Meeting approved a dividend of SEK 4.50 per share, in accordance with the proposal of the Board of Directors and the CEO. In addition, the Annual General Meeting passed resolutions on fees payable to the Board of Directors, remuneration guidelines for senior management, authorization of the Board of Directors regarding repurchase and transfers of own Series B shares, and the implementation of a long-term incentive program (LTI 2012) for senior management and other key staff in the Group, as well as appointing members of the Nomination Committee prior to the 2013 Annual General Meeting.

Nomination Committee

The Nomination Committee prior to the 2013 Annual General Meeting comprises Gustaf Douglas (Investment AB Latour), Mikael Ekdahl (Melker Schörling AB), Liselott Ledin (Alecta), Marianne Nilsson (Swedbank Robur fonder) and Per-Erik Mohlin (SEB fonder/SEB Trygg Liv). Gustaf Douglas is Chairman of the Nomination Committee. If a shareholder represented by one of the members of the Nomination Committee ceases to be among the major shareholders in ASSA ABLOY, the Nomination Committee has the right to appoint another representative of one of the major shareholders to replace such a member. The same applies if a member of the Nomination Committee ceases to be employed by such a shareholder or leaves the Nomination Committee before the 2013 Annual General Meeting for any other reason.

The Nomination Committee has the task of preparing, on behalf of the shareholders, resolutions on the election of the Chairman, the Vice Chairman and other members of the Board of Directors, the appointment of the auditor, the election of the Chairman of the Annual General Meeting, the appointment of the Nomination Committee prior to the Annual General Meeting, and fees and associated matters.

Prior to the 2013 Annual General Meeting, the Nomination Committee has made an assessment of whether the current Board of Directors is appropriately composed and fulfills the demands made on the Board of Directors by the company’s present situation and future direction. The annual evaluation of the Board of Directors was part of the basis for this assessment. The search for suitable board members is carried on throughout the year and proposals for new board members are based in each individual case on a profile of requirements established by the Nomination Committee.

Shareholders wishing to submit proposals to the Nomination Committee can do so by emailing: nominationcommittee@assaabloy.com.

The Nomination Committee’s proposals are published at the latest in conjunction with the formal notification of the Annual General Meeting, which is expected to be issued around 21 March 2013.

Board of Directors

In accordance with the Swedish Companies Act, the Board of Directors is responsible for the organization and administration of the Group and for ensuring satisfactory control of bookkeeping, asset management and other financial circumstances. The Board of Directors decides on the Group’s overall objectives, strategies and policies, as well as on acquisitions, divestments and investments. The Board of Directors approves the Annual Report and Interim Reports, proposes a dividend and remuneration guidelines for senior management to the Annual General Meeting, and makes decisions concerning the Group’s financial structure.

The Board’s other duties include among other things:

• continuously evaluating the company’s operational management, including the work of the CEO,
• ensuring that there are effective systems in place for monitoring and control of the company’s operations,
• ensuring that the company’s information provision is transparent, accurate, relevant and reliable,
• ensuring that there is satisfactory control of the company’s compliance with laws and other regulations applying to the company’s operations, and
• ensuring that necessary ethical guidelines for the company’s conduct are established.

The Board of Directors’ rules of procedure and instructions for the division of duties between the Board of Directors and the CEO are updated and approved at least once a year. The Board of Directors has also issued written instructions specifying how financial reporting to the Board of Directors should be carried out.

In addition to leading the work of the Board of Directors, the Chairman should continuously monitor the Group’s operations and development through contact with the CEO. The Chairman should consult the CEO on strategic issues and represent the company in matters concerning the ownership structure. The Chairman should also, when necessary, take part in particularly important external discussions and, in consultation with the CEO, in other matters of particular significance. The Chairman should ensure that the work of the Board of Directors is evaluated annually, and that new members of the Board of Directors receive appropriate training.
The Board of Directors has at least four scheduled meetings and one statutory meeting per year. The scheduled meetings take place in connection with the company's publication of its year-end or quarterly results. At least once a year the Board of Directors visits one of the Group's businesses, possibly combined with a board meeting. In addition, extra board meetings are held when necessary. All meetings follow an approved agenda. Prior to each meeting, a draft agenda including documentation is sent to all board members.

The Board of Directors has a Remuneration Committee and an Audit Committee. The purpose of these Committees is to deepen and streamline the work of the Board of Directors and to prepare matters in these areas. The Committees have no decision-making powers. The members of the Committees are appointed annually by the Board of Directors at the statutory board meeting. Instructions for the Committees are included in the Board of Directors' rules of procedure.

**Board of Directors’ work in 2012**

During the year the Board of Directors held nine meetings (five scheduled meetings, one statutory meeting and three extraordinary meetings). One board member was absent at two meetings. All board members were present at the other meetings. At the scheduled board meetings, the CEO reported on the Group’s performance and financial position, including the outlook for the coming quarters. Investments, acquisitions and divestments were also considered. All acquisitions and divestments with a value (on a debt-free basis) exceeding SEK 100 M are decided by the Board of Directors. This amount presumes that the matter relates to acquisitions or divestments within the framework of the strategy agreed by the Board of Directors.

More important matters dealt with by the Board of Directors during the year included, among other things, ASSA ABLOY’s investment in Seos, a commercial ecosystem for creating and managing digital keys in NFC cell phones. In addition, the Board of Directors dealt with a number of acquisitions, including Guoqiang and 4Front. During the year, the Board of Directors conducted in-depth reviews of the Group’s operations in Entrance Systems and EMEA and visited Americas’ operations Curries and Graham in the USA.

**Remuneration Committee**

During 2012 the Remuneration Committee comprised Lars Renström (Chairman), Jan Svensson and Sven-Christer Nilsson.

The Remuneration Committee’s task is to draw up remuneration guidelines for senior management, which the Board of Directors proposes to the Annual General Meeting for resolution. The Board of Directors’ proposal for guidelines prior to the 2013 Annual General Meeting can be seen on page 77.

The Remuneration Committee also prepares, negotiates and evaluates matters regarding salaries, bonus, pension, severance pay and incentive programs for the CEO and other senior executives.

The Committee held one meeting in 2012 at which all members were present.

The Remuneration Committee’s work included, among other things, preparing a proposal for the remuneration of the Executive Team, evaluating existing incentive programs, and preparing a proposal for a long-term incentive program for 2013. The meetings of the Committee are minuted, the minutes are distributed with material for the Board of Directors and a verbal report is given at board meetings.

**Audit Committee**

During 2012 the Audit Committee comprised Ulrik Svensson (Chairman), Birgitta Klasén and Jan Svensson.

The duties of the Audit Committee include the continuous quality assurance of ASSA ABLOY’s financial reporting. Regular communication is maintained with the company’s auditor on matters including the focus and scope of the audit. The Audit Committee is also responsible for evaluating the audit assignment and informing the Board of Directors and the Nomination Committee of the results, as well as continuously monitoring the current risk status of legal risks in the operations. The Audit Committee held four meetings in 2012 at which all members, the company’s auditor and representatives of senior management were present. More important matters dealt with by the Audit Committee during the year included internal control, financial statements and valuation matters, tax matters and legal risk areas.

The meetings of the Committee are minuted, the minutes are distributed with material for the Board of Directors and a verbal report is given at board meetings.

**ASSA ABLOY’s Board of Directors**

The Board of Directors is elected annually at the Annual General Meeting for the period until the end of the next Annual General Meeting and shall according to the articles of association comprise a minimum six and a maximum ten members elected by the Meeting. Two of the members are appointed by the employee organizations in accordance with Swedish law. The employee organizations also appoint two deputies. The Board of Directors currently consists of eight elected members and two employee representatives. With the exception of the CEO, none of the board members are members of the Executive Team. The CEO has no significant shareholdings or partnerships in companies with significant business relationships with ASSA ABLOY.

**Remuneration of the Board of Directors**

The Annual General Meeting passes a resolution on the remuneration to be paid to board members. The 2012 Annual General Meeting passed a resolution on board fees totaling SEK 4,600,000 (excluding remuneration for committee work), to be allocated between the members as follows: SEK 1,350,000 to the Chairman, SEK 750,000 to the Vice Chairman and SEK 500,000 to each of the other members appointed by the Annual General Meeting and not employed by the company. As remuneration for committee work, the Chairman of the Audit Committee is to receive SEK 200,000, the Chairman of the Remuneration Committee SEK 100,000, members of the Audit Committee (the Chairman excluded) SEK 100,000, and members of the Remuneration Committee (the Chairman excluded) SEK 50,000.
The Chairman of the Board of Directors and other board members have no pension benefits or severance pay agreements. The CEO and employee representatives do not receive board fees. For further information on the remuneration of board members in 2012, see Note 33.

Executive Vice President.
Head of Global Technologies business unit ASSA ABLOY Hospitality.
Shareholdings: 5,584 Series B shares.

Juan Vargues
Born 1959.
Degree in Mechanical Engineering, MBA.
Executive Vice President.
Head of Entrance Systems division.
Employed since: 2002.
Shareholdings: 10,677 Series B shares.
The Executive Team and organization

The Executive Team consists of the CEO, the heads of the Group’s divisions, the Chief Financial Officer and the Chief Technology Officer. ASSA ABLOY’s operations are divided into five divisions, where the fundamental principle is that the divisions should be responsible, as far as possible, for business operations, while various functions at headoffice are responsible for coordination, monitoring, policies and guidelines at an overall level. The Group’s structure results in a geographical and strategic spread of responsibility ensuring short-decision-making paths. The Group’s management philosophy is based on trust and respect for local cultures and conditions.

Guidelines and policies

The Group’s most important guidelines and policies define the product areas in which the Group should operate and describe the principles for market development, growth, product development, organization, cost-efficiency and employee development. These principles are described in the publication ‘Our Road to the Future’, which has been provided to all employees in the Group. Other important guidelines and policies concern financial control, communication issues, insider issues, the Group’s brands, business ethics, export control, and environmental issues.

ASSA ABLOY’s financial policy and accounting manual provide the framework for financial control and monitoring. The Group’s communications policy aims to ensure essential information is provided at the right time and in compliance with applicable rules and regulations. ASSA ABLOY has adopted an insider policy to complement applicable Swedish insider legislation. This policy applies to all persons reported to the Swedish Financial Supervisory Authority as holding insider position in ASSA ABLOY AB (including subsidiaries) as well as certain other categories of employees. Brand guidelines aim to protect and develop the major assets that the Group’s brands represent.

ASSA ABLOY has adopted a Code of Conduct that applies to the whole Group. The Code, which is based on a set of internationally accepted conventions, defines the values and guidelines that should apply within the Group with regard to the environment, health and safety, business ethics, working conditions, human rights and social responsibility. Application of the Code of Conduct in the Group’s different units is monitored regularly to ensure compliance and relevance. ASSA ABLOY has also adopted an anti-bribery policy and an export control policy that applies to the whole Group.

Decentralized organization

ASSA ABLOY’s operations are decentralized. Decentralization is a deliberate strategic choice based on the industry’s local nature and a conviction of the benefits of a divisional control model.

ASSA ABLOY’s operating structure is designed to create maximum transparency, to facilitate financial and operational monitoring, and to promote the flow of information and communication across the Group. The Group consists of five divisions, which are divided into around 30 business units. These consist in turn of a large number of sales and production units, depending on the structure of the business unit concerned. Apart from monitoring by unit, monitoring of products and markets is also carried out.

Internal control of financial reporting

ASSA ABLOY’s process for internal control of financial reporting is designed to provide reasonable assurance of reliable financial reporting, which is in compliance with generally accepted accounting principles, applicable laws and regulations, and other requirements for listed companies. The process is based on the internal control framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). It can be divided into a number of sub-components, as defined in the above framework, and is described in more detail below.

Control environment

The Board of Directors is responsible for effective internal control and has therefore established fundamental documents of significance for financial reporting. These documents include, among other things, the Board of Directors’ rules of procedure and instructions to the CEO, the Code of Conduct, financial policy, and an annual financial evaluation plan. Regular meetings are held with the Audit Committee. The Group has an internal control function whose primary objective is ensuring reliable financial reporting.

ASSA ABLOY’s effective decentralized organizational structure makes a substantial contribution to a good control environment. All units in the Group apply uniform accounting and reporting instructions. Minimum levels for internal control of financial reporting have been established and are monitored annually for all operating companies. The Code of Conduct was previously reviewed and updated, and compliance is monitored systematically in operations.
Risk assessment
Risk assessment includes identifying and evaluating the risk of material errors in accounting and financial reporting at Group, division and local levels. A number of previously established documents govern the procedures to be used for accounting, finalizing accounts, financial reporting and review. The entire Group uses a financial reporting system with pre-defined report templates.

Control activities
The Group’s controller and accounting organization at both central and division level plays a significant role in ensuring reliable financial information. It is responsible for complete, accurate and timely financial reporting.

A global financial internal audit function has been established and carries out annual financial evaluations in accordance with the plan annually adopted by the Audit Committee. The results of the financial evaluations for 2012 are submitted to the Audit Committee and the auditors. Group-wide internal control guidelines are reviewed annually. These guidelines affect various procedures, such as ordering and purchasing (including payments), finalizing accounts and plants, as well as compliance with various relevant policies, legal issues and HR issues.

Information and communication
Reporting and accounting manuals as well as other financial reporting guidelines are available to all employees concerned on the Group’s intranet. A regular review and analysis of financial outcomes is carried out at both business unit and division level and as part of the Board of Directors’ established operating structure. The Group also has established procedures for external communication of financial information, in accordance with the rules and regulations for listed companies.

Review process
The Board of Directors and the Audit Committee evaluate and review the Annual Report and Interim Reports prior to publication. The Audit Committee monitors the financial reporting and other related issues, and regularly discusses these issues with the external auditors.

All business units report their financial results monthly in accordance with the Group’s accounting principles. This reporting serves as the basis for quarterly reports and a monthly legal and operating review. Operating reviews conform to a structure in which sales, earnings, cash flow, capital employed and other important key figures and trends for the Group are compiled, and form the basis for analysis and actions by management and controllers at different levels. Financial reviews take place quarterly at divisional board meetings, monthly in the form of performance reviews and through more informal analysis. Other important group-wide components of internal control are the annual business planning process and monthly and quarterly forecasts.

The Group-wide internal control guidelines were reviewed during the year in all operating companies through self-assessment and in some cases a second opinion from external auditors. These self-assessments are then reviewed at division and Group level to further improve the reliability of the financial reporting.

External audit
At the 2010 Annual General Meeting, Pricewaterhouse-Coopers (PwC) were appointed as the company’s external auditors for a four-year period up to the end of the 2014 Annual General Meeting, with authorized public accountant Peter Nylin as the auditor in charge. PwC have been the Group’s auditors since the Group was formed in 1994. Peter Nylin, born 1966, is responsible for auditing SEB, Sveriges and Ericsson as well as ASSA ABLOY.

PwC submits the audit report for ASSA ABLOY AB, the Group and a large majority of the subsidiaries worldwide. The audit of ASSA ABLOY AB also includes the administration by the Board of Directors and the CEO.

The company’s auditor attends all Audit Committee meetings as well as the February board meeting, at which he reports his observations and recommendations concerning the group audit for the year.

The external audit is conducted in accordance with International Standards in Auditing (ISA), which has been good auditing practice in Sweden since 2011. The audit of the financial statements for legal entities outside Sweden is conducted in accordance with statutory requirements and other applicable rules in each country. For information about the fees paid to auditors and other assignments carried out in the Group in the past three financial years, see Note 3 and the Annual Report for 2011, Note 3.
