The company VingCard Elsafe

Since revolutionizing the hospitality industry in 1979 with hotel security solutions, VingCard Elsafe has continued to lead the market by continuously introducing innovations to the industry. VingCard Elsafe is dedicated towards providing electronic security solutions to the hospitality industry and facilities where people sleep away from home, and is recognized as the established worldwide leader within the industry.

We are where you are. With our sales force, covering all corners of the world, we have secured thousands of properties and millions of rooms. VingCard Elsafe is your true global security partner, dedicated to offer you advanced security solutions and peace of mind for both hospitality providers and their guests.
Peace of mind when your guests are away from home

Our Scandinavian design represents quality, functionality and durability, a concept that is well-known throughout the world. Since the invention of the first card lock system in 1979, we have continued to deliver high quality products focusing on securing hotel guests, their belongings and your property.

With VingCard you can unlock your door to endless possibilities because we know what it takes to unlock the true potential of your security solutions.

For more information about our product offerings, please visit: www.vingcard.com - products.

Strength through Reliable Quality

Since the beginning, we have continued to deliver high quality electronic locks to the hospitality industry through experience, knowledge, modern technology and the finest materials. By focusing on modern manufacturing facilities, internal resources and a close dialogue with our customers, VingCard has been able to continuously develop solutions matching customer needs.

Designed according to the most demanding ANSI grade 1 standards, VingCard's electronic locks are tested to more than 1 million openings. Based on a heavy duty mortise lockcase and a solid steel and brass escutcheon, the lock is as solid as it is secure. Solid brass handles fastened on the inside of the escutcheon with self lubricating long life bearings ensure maximum security and a true quality touch and feel.

Continuous Research and Development

Since 1979, research and development has been a key element for us in finding new solutions for the future. By working together as a team, using our learning experience from the market and combining this with our know-how, we are able to develop tomorrow's solutions.
Introduction

Features and Flexibility

VingCard electronic locking solutions provide you with all the features you will need to manage your hotel operations and offer security and peace of mind to your guests. Our locking solutions provides total flexibility, adapting our solutions to your specific needs.

Serviceability

The modular construction makes it easy to change and service parts without changing the complete lockset. Due to our future proof philosophy the lock software can at any time be upgraded in the field when needs change without changing or removing any hardware.

User Friendly

When investing in any of our electronic locking systems, you are guaranteed a user friendly and low maintenance solution that will help your hotel operations and staff interaction.

Service

Service has always been an important part of our offering. Wherever you are located and whatever kind of product you use, we provide support and guidance.

VingCard Elsafe’s sales and support organization spans the globe. This allows our valued customers to enjoy the benefits of our worldwide resources, along with the convenience of local service and support.

Committed to a partnership with our customers in the hospitality industry, VingCard Elsafe believes that every customer is a customer for life. Our installation and training programs demonstrate this commitment. Operated on a 24-hour, 365-day basis, technical support is always at hand to answer any questions you may have, so you can get the support you need, when you need it.

VingCard Elsafe offers the world’s largest support, service and sales organization for your convenience.

At VingCard Elsafe, We listen!

VingCard offers a complete range of guestroom door locks to suit your needs

Signature by VingCard

Design Your Security

Where the design integrity of the property is top priority, there is a desire for the necessary hardware to blend into the environment, becoming invisible to the end-user. Signature by VingCard is design conscious and appeals to the most sophisticated styles in hotels worldwide.

Signature Trend by VingCard

Signature Trend by VingCard is especially suited for contemporary and modern hotel environments. It enhances the overall image of the corridor with the slim and discrete escutcheon which perfectly blends into the door, creating a pleasing image.

Signature Décor by VingCard

Signature Décor by VingCard has been designed with the classic and decorative hotel styles in mind. With its elegant, curved escutcheon, Décor provides an exclusive image with the ambience of a classic and decorative style, enriching the overall atmosphere.
Optional Designers' Collection

VingCard has partnered with the following renowned designers through the famous Italian handle crafter Valli&Valli: Norman Foster and Partners, Yoshimi Kono, Gustav Peichl, Antonio Citterio, Gregotti Associati, Richard Meier, Sottsass Associati, Taller Design Ricardo Bofill and Piano Design Workshop.

Because your hotel requires the most exclusive and luxury touch, and you want to offer a personal and unique experience to your guests, Signature by VingCard has created an optional Designers' Collection in order to offer you the most extensive and exclusive designer handles for electronic locks today.

For more information on our Signature electronic lock, please request the specific Signature brochure or visit our website: www.vingcard.com
Signature RFID by VingCard

Get More with Contact Less

Radio Frequency Identification (RFID), future technology in electronic locking systems for hotels.

RFID, contact less technology

Signature RFID by VingCard offers the latest Radio Frequency Identification (RFID) technology with the most flexible platform for future applications:

:: 13.56MHz technology
:: Compatible with following standards:
  - ISO 14.443 A (MIFARE)
  - ISO 14.443 B
  - ISO 15.693

:: Compatible with Near Field Communication (NFC): (NFC technology enables RFID communication between our electronic locks with NFC-ready latest generation cell phones).

- Guests can receive the booking confirmation, an encrypted room key and room number to their cell phone by SMS prior to their arrival, thus no need to check in at front desk.
A wide range of RFID (contact less) carriers

VingCard offers a wide range of RFID carriers that are especially designed for different applications (for your guests, for your staff or for your VIP guests) and gives you the opportunity to enhance your guests’ experience at your hotel.

**Typical Hotel application:**
- **Guests:** Low cost guest keycards.
- **Staff:** Long lasting staff keycards.
- **VIP guests:** Keyfobs and NFC cell phones

**Typical Resort & spa application:**
- **Guests:** Wristbands.
- **Staff:** Long lasting staff keycards.
- **VIP guests:** Wristbands, keyfobs or NFC cell phones.

---

**Quick path from standard Signature to RFID reader technology**

Upgrade from Signature by VingCard mag stripe or combo technology reader to RFID technology by replacing the reader unit and escutcheon only.

- 3-5 minute operation.
- No disturbance or inconvenience for your guests.
- No need to replace the lockcase or handles.
- No drilling required.
- No downtime room availability.

---

**Future Technology Today**
Benefits:

- **More Guest Satisfaction**: Unmatched ease of use for guests of all ages. No need to insert the keycard, more intuitive.
- **More Security**: anti-cloning technology for all guest and staff cards. Unlike Mag-stripe whose keycards can be cloned, RFID technology allows powerful anti-cloning solution.
- **More Adaptability**: RFID keycards and carriers adapt to any hotel style: You can choose from low cost guest cards, long lasting staff cards, wristbands and keyfobs to perfectly match different hotel types: Business, Resort, Spa, All-inclusive.
- **More Information and Control**: Signature RFID electronic lock can write back information on staff RFID keycards for better information and management: Staff card audit trail, low battery status, cylinder tamper alarm.
- **More Integration**: You can integrate and interface Signature RFID keycards with other applications at your hotel (loyalty programs, vendor payment, etc).
- **More Exclusivity**: Provide a new experience for your customers and enhance the image of your hotel.
- **More Robustness**: Signature RFID electronic lock components are sealed and provide better performance for outdoor use.
- **More Selection**: Provides access today to next generation technologies, including NFC-cell phone.
- **Less guess-work** out of selecting the right technology. Signature RFID by VingCard offers technology standards in 1 electronic lock.

Features:

- Anti-cloning technology.
- Write-back, the RFID lock is able to write on to the RFID staff keycards (staff audit trail, auto card cancellation, cylinder tamper alarm, service diagnosis, read-out cards and more.
- RFID cards are ready to integrate other multi applications.
- Stand alone electronic lock with RFID technology. It is no longer needed to insert the keycard, which improves the ease of use for your guests.
- Flexibility to work with many different carriers. It can work with: low cost guest keycards, standard keycards, staff keycards, wristbands, keyfobs and NFC cell phones.
- Greater flexibility to personalize the experience of your customers and enhance the image of your hotel.
- Increased protection of the reader against vandalism.

Anti-Clone Technology

Anti-clone technology for all guest and staff keycards: allows powerful anti-cloning solutions.
A long term investment

Classic is the lock that made the name VingCard synonymous with guest room security.

With its sleek and elegant design, available with a range of attractive styles and finishes, you are able to match the appearance of your locks with the style and interior of your hotel.

Real time technology ensures that guests block out all previous guests the first time they insert their keycard in the lock, at the same time as the lock logs an audit trail of all lock openings in a non-volatile memory.

Classic by VingCard, quality and reliability in one piece.

Finishes & Options
The widest range of finishes and options

Design options

Offering one of the industry’s widest choice of style and handle combinations, Signature and Classic electronic locks can be configured to truly match the design of any property.

Escutcheon & handle options

(Only showing standard handles for Signature, for more information about additional handles in the Signature range, please see our website: www.vingcard.com or contact your local sales office.)
Finishes

Offering one of the industry's widest choice of finishes, VingCard electronic locks can be configured to truly match the design of any property.

Signature and Classic finishes:

- Satin Chrome
- Polished Chrome
- Satin Brass
- Polished Brass
- Velour Nickel w/Polyester
- Light Bronze
- US Antique Oil Rubbed
- Dark US Antique Oil Rubbed
- Antique Polyester
- Signature and Classic finishes:

Additional aluminium finishes for Classic by VingCard (only available for Presto handles):

- Gold Anodized
- Silver Anodized
- Bronze Anodized

Signature RFID reader colors:

- Black
- Blue
- Green
- Orange
- Red

Note: Black is the standard reader color. In addition, 4 other colors are optional (Blue, Green, Orange, Red). Handles and escutcheon ring can be delivered in any of our metal finishes.

Optional PVD finish (Physical Vapour Deposition) - for extreme conditions:

VingCard offers an exclusive PVD coated finish that protects the lock finish from corrosion, UV Beams, Salt, extreme weather conditions, aggressive cleaning products and more. PVD not only maintains the finish of the lock for longer it is also covered by a 10 year warranty.

The PVD finish is available as an optional feature for Signature locks in the following finishes only: Satin - Chrome or Brass and Polished - Chrome or Brass.

Note: Special terms and conditions apply to the PVD 10 year warranty program.

Cylinder options

VingCard locks may also be supplied with an optional mechanical key override cylinder, widely recognized as the finest in the industry.

- Use of mechanical key override is registered in the lock memory for audit trail.
- Mechanical cylinder can be either visible or not visible with a cylinder concealer (Signature only, finish may vary from lock finish).
- Superior pick resistance through its 7 pin high security profiles and narrow channel paracentric keyway and anti pick drivers.
- Unique cylinder fixing for added security.
- 5 times recodable cylinder (including 2 construction levels).
- Cylinder is available in all lock finishes.

Automatic deadbolt option

The automatic deadbolt lockcase has been produced to provide our customers and their guests with an added measure of security. Automatically extending the deadbolt upon door closure ensures that the security of the deadbolt is present without the guest having to remember to extend it via the thumbturn.
VISION by VingCard

An ideal combination of power and flexibility

The best option for large properties

VISION by VingCard is a full-featured, functionally rich access control system with the power, flexibility and ease of use to meet the operating needs of any hotel both now and in the future.

VISION by VingCard is a result of more than 25 years of experience in hotel security and a wealth of accumulated knowledge of what is important for hotels. You will find a depth in features and attention to detail that includes:

Features:

- Powerful SQL client server database technology for stable, high security operations and effective back up/restoring options.
- True TCP/IP network capabilities. Encoders can be connected directly to the hotel’s own LAN and shared between workstations.
- Flexible PMS & POS interface options. Choose between serial, TCP/IP and direct DLL integration.
- Windows® software platform.
- Supports both magnetic stripe and combo (magnetic stripe and smart card) and RFID operations.
- Compatible with automatic check-in Kiosks.
- Manages up to 8 different weekly time/shift tables. Customize every day of the week in 30 minute increments.
- Manages up to 53 different common door definitions.
- And many more…

KeyCard, Batteries & Accessories
There is more to VingCard than what you know

**Quality Guaranteed - Commitment to service and prompt delivery**

**Ideas To Increase Your Profit Margins!**

KeyCards by VingCard never fail to function in your VingCard locking system. Our aim is to provide our customers with more than just top quality products. KeyCards by VingCard can also help you increase your revenue.

From guest keycards to staff keycards, wristbands and keyfobs.
**Cleaning Cards**

Increase reader performance

For proper maintenance and proper performance of the lock readers, VingCard offers cleaning cards for your convenience.

**Batteries**

Longer life expectancy for your locks

Not everything is what it seems. And for locks, it is very important that you get batteries that meet our standards of life expectancy and quality.

**In-room and Back of House Accessories for Design Continuity**

Unlimited possibilities - customized solutions

VingCard Accessories offer a wide range of security hardware to complement your hotel door locks. Various standards are included in our product range, such as ANSI, EURO, SIS, DIN etc.
In-room and Back of House Accessories

You can choose from a wide range of in-room and back of house accessories for your establishment. These include:

- **Remote Controller/Parking Controller**: This independent unit provides access control on common doors, such as parking, health clubs, conference suites, staff entrances or guest night entrances. VingCard's Remote Controller is fully compatible with all of VingCard's card locking systems and offered in the same finishes as our locks.

- **VingCard 1000-series cylinder locks**: The VingCard 1000-series cylinder locks are designed to complement VingCard’s electronic locks, ensuring uniform appearance in guestrooms and corridors.
  - Available in ANSI and EURO.
  - Staff key will fit into cylinder keyways.
  - UL-fire listed.
  - Finish and material; as for the electronic locks.

- **VingCard's Room Number Plate**: VingCard’s Room Number Plate is available in the same style and finish as the VingCard card locks ensuring uniform appearance on guestroom doors.

- **VingCard’s Door Retainer**: VingCard’s Door Retainer prevents entry of intruders and increases the guest’s safety. The Door Retainer is delivered in satin chrome or -brass and polished chrome or -brass.

- **Exit Device**: Exit Device to work with your VingCard electronic card locking system. This makes it possible to use encoded cards to control all guest and staff access to the building, while providing a panic exit device to satisfy all safety considerations for emergency exit. Opening the door from the inside is achieved by simply pushing the push bar.

For more information, please visit: www.vingcard.com.
VingCard’s Elevator Controller is designed to be built into the elevator panel and operates offline. The security level of the hotel will increase, as only guests with a valid keycard will have access to the elevators/floors. The Elevator Controller is compatible with all of VingCard’s card locking systems.

VingCard offers a complete range of in-room Energy Control Units, the perfect combination to provide in-room comfort to your guests while, at the same time, saving energy and money when they are outside their rooms.

VingCard’s Bathroom Lock has an occupancy indicator and a thumb turn, and it is easy to change the lock case handing from left to right. The Bathroom Lock is delivered in the same finishes as for the electronic locks.

VingCard’s high quality Door Viewer with glass lens has a super wide 200° all round clear angle of view. The Door Viewer is delivered in satin chrome or -brass and polished chrome or -brass.

VingCard offers a wide range of Minibars.
