Discover the Primo advantage

Primo is a state-of-the-art access control solution tailored to meet the unique needs of your enterprise. Experience the perfect blend of usability, customization, scalability, and advanced protection to ensure your business remains secure and adaptable.

Intuitive usability

User-friendly wizards guide you through every step, making configuration and onboarding easy and convenient.

Customizable set-up

Tailor your experience by customizing views and creating unique credential-holder types to adapt the system to your specific needs.

Scalable system

Easily manage up to 10,000 doors and 1 million credential holders within a single facility, or scale to 250 facilities, all through a centralized database.

Advanced protection

End-to-end encryption and advanced security protocols ensure that your access control system is resilient and reliable.

Experience enhanced security

Elevate your business security to new heights with Primo, the cutting-edge access control solution designed for unparalleled protection and flexibility.

With a focus on advanced technologies and seamless integration, Primo ensures your security infrastructure is robust and adaptable to your unique needs. Discover the features that make Primo the ideal choice for comprehensive, reliable security management.

Intelligent and scalable solution for access management

Advanced and user-friendly technology for a secure business environment

Manage security anywhere from the web-based interface

Mobile access and biometrics

Supports mobile and biometric access, including fingerprint and facial recognition for enhanced security.

Local site validation

Full redundancy keeps access control running even if the central software goes offline, ensuring continuous security.

Future-proof investment

Expands to accommodate user-number growth or integration with additional third-party solutions.

Multi-site management

Easily control access across multiple sites or branches from a central point.

Comprehensive reporting

Generate detailed reports easily, predefined or custom, for valuable insights.

Make your access ready for what's ahead
