

Your CLIQ® system, your choice

ASSA ABLOY
Opening Solutions

Access management support
to save you time and money

Experience a safer
and more open world

Making access control and security management more efficient

Our help to solve your daily challenges

No two premises are the same. But many challenges of facilities management are shared – by businesses of every size, type and location.

That's why CLIQ has a **menu of software and service options** to help you meet them.

Secure, customizable software to manage your CLIQ access control system from anywhere

Intuitive access management with CLIQ Web Manager

CLIQ Web Manager software makes it straightforward to **manage all your access points and users in the cloud.**

By choosing CLIQ Web Manager, you can filter access to specific locks according to security needs. Or easily create schedules for users and doors, and generate audit trails to trace site usage. CLIQ Web Manager supports **multiple administrators** and sites.

You can also **customize your CLIQ installation with a range of tools and services.**

Your CLIQ, your way

By choosing from CLIQ Web Manager's range of tools and services, you:

- Get more from your time, with help to get security management done **faster**
- Make **budgeting** more predictable, even if your access control needs could change
- Save **costs**, by removing any need to buy expensive IT equipment to extend control

You can combine our add-ons within a single CLIQ system – to maximize the efficiency benefits.

Leave software management
to our experts

Software as a Service (SaaS)

CLIQ SaaS packages help you manage everyone's access effectively – while minimizing the investment you need to get started.

When you choose SaaS, **we look after:**

initial investment and server costs

firewall, antivirus and backups

automatic software updating

encryption and cybersecurity

24/7 security, 365 days a year

We offer options suited to organizations of every size and type.

You have the choice

Self-hosting your CLIQ system

You could choose self-hosting over a CLIQ SaaS package, but first budget for the expected costs:

Before choosing self-hosting over a CLIQ SaaS package, consider the estimated costs in your budget planning:

	Host servers	4800 € / yr.		Operations & 24/7 support	3000 € / yr.
	Software licences	6600 € / yr.		Staff training	3000 € / yr.
	Firewall & antivirus	300 € / yr.		Maintenance	3000 € / yr.

* Costs are based on internal research and may vary depending on the setup and level of robustness.

Why choose a SaaS package?

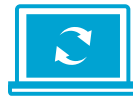

Relax with Software as a Service and CLIQ Web Manager

Reduce costs and make annual budgeting easier

Save time on multiple operations/processes

Your software is always the latest version

Spend less on system management hardware and software

Employ fewer maintenance and support staff

Transfer your existing set-up with our help

Enjoy scalability and high availability

Integration: manage CLIQ keys from a third-party system

Extend the power of your existing security

Software integration with CLIQ Web Manager combines its powerful access control features with your current business or security software.

CLIQ Web Manager is **integration-ready**, so you can manage users from existing software or integrate CLIQ Connect smart key management with your company's own app.

[LDAP integration](#) ensures slick interactions between your company employee database and security system.

Integration will help your business save time, avoid input errors, reduce training needs for multiple systems and **operate more efficiently**.

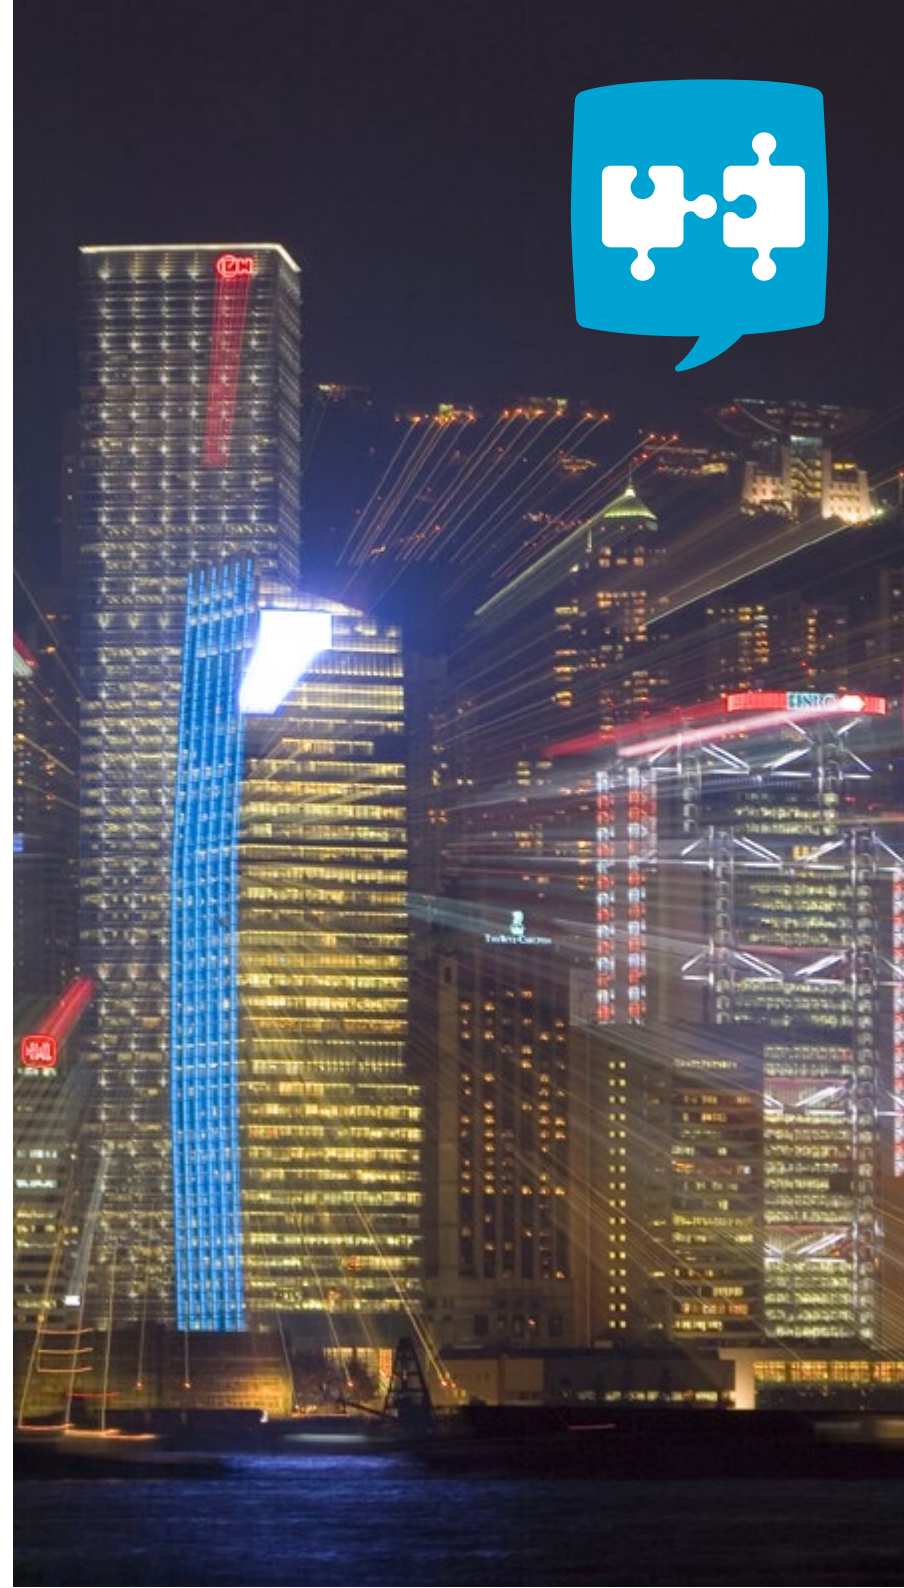

Build your own integration with our ready APIs and SDK or use one that already exists for:

Easy on-site management from
a dedicated PC

CLIQ Local Manager

Almost anyone can run a CLIQ or eCLIQ access control system from a standard Windows PC. CLIQ Local Manager software is **easy to install and to use**.

With a few clicks on CLIQ Local Manager's user-friendly interface, you can add or amend users in your system. To change the access rights of a CLIQ key, simply update the software and insert the relevant key into the companion Desk Programming Device.

Easy start-up, with simplified,
local management of a single site

Tailor access with 32 programmable time
slots that you define

Manage up to 5,000 keys and
5,000 cylinders or padlocks
