

ASSA ABLOY Opening Solutions Middle East Delivering On Safety & Security With Premium Aesthetics

ASSA ABLOY
Opening Solutions

Experience a safer
and more open world

ASSA ABLOY Opening Solutions Middle East delivering on safety and security with premium aesthetics to Seventh Heaven, Al Barari

Seventh Heaven is an exclusive luxury development of 157 one to four bedroom stunning properties, designed in a cascading style taking inspiration from the rugged mountains that dot the country's coastline. The exclusive penthouses, duplexes and garden homes ranging from 1,700 sq ft to 6,700 sq. ft, provide maximum views and light that overlook the lush landscapes.

Seventh Heaven will contribute to one of the most eco-friendly and sustainable communities in Dubai.

Challenge

The main challenge of the project was to match customer's requirements whilst complying with the local authority's building regulations. In order to deliver on the luxurious, premium aesthetic interior finishing of the project, metal doors were required to be positioned in a variety of locations including technical rooms, exit doors, corridors, lobby, lift lobby, parking exits and stairs, delivering not only in looks but also strength.

Solution

The ASSA ABLOY Opening Solutions Middle East team has been involved from the initial design concept to schedule doors and hardware for the prestigious luxury project. The team worked very closely with the client, architects and contractors to ensure that the best possible proposals were presented for each aspect of the multifaceted building, combining the highest security with premium aesthetics. Our team proposed the use of customized doors from the ProMetal Door range. The proposal includes fire-rated (60 to 90 minutes) hollow metal doors with polyester powder coated finish in standard design and regular size, all of which are fully compliant to the project specifications and local Civil Defense Authority and Environmental Laws. Using its capabilities in security design and specification, ASSA ABLOY delivered a bespoke range of more than 600 fire-rated metal doors, all of which are manufactured at ASSA ABLOY Opening Solutions' Jebel Ali based manufacturing facility in Dubai.

Segment: Residential

Property type: Luxury Apartments & Penthouses

Location: Dubai

"ASSA ABLOY is the number one brand of high specifications of doors and hardware for luxury projects. The ASSA ABLOY Opening Solutions Middle East team were very helpful in providing effective solutions and delivered the project on time."

Idris Waheed

Project Manager, Sustainable Builders
