

# Creating access for the art of experience

Keep your guests safe and secure with our complete security and access solutions

**ASSA ABLOY**  
Opening Solutions

Experience a safer  
and more open world

# Enjoy peace of mind knowing that your guests are safe and secure while they stay with you.

Hotels are a sight to behold for tired guests, and for most travelers, they are a relaxing home away from home. As hospitality providers, how do you create a secured environment with the right access control system to ensure guests and staff are safe while maintaining smooth operation flows.

At ASSA ABLOY, we offer total access solutions that are developed with hospitality needs in mind, including in-room guests experience, other hotel guests, hotel front end and back end personnel, and property management team. These requirements are considered and integrated into our solutions to create a comforting, safe, convenient access for the best guest experience.

*Main entrance*

## Give your guests a world-class welcome

Where solutions meet sophistication. Not only do our solutions offer a smooth entrance experience, but they also add a touch of class and sophistication to your facility with a stylish look and luxurious sensibility.

### **Our solutions:**

Auto sliding or swing operator opens the door for guests before they reach the doors. Doors remain shut when there are no movement or passage needed.

- Automatic revolving door
- Automatic sliding doors
- Automatic swing doors
- Motion and safety sensor
- Car park automatic barrier

*Lobby area*

## Impress your guests at first sight

Your lobby area is where the guests begin their trips. Even before checking into their rooms, guests get their first impression of the hotel by stepping into the lobby.

Our solutions for lobby and passage access are designed to enhance security, while providing a seamless flow of traffic.

**Durable, secured door hardware and controlled room access:**

- Electronic access control
- Door closer with safe zone close feature
- Door stopper, push plate

*Leisure and recreational facilities*

## Let your guests unwind and recharge in their utmost carefree stay

Our solutions are designed for hotel public areas and the most demanding environments. With our stylish, durable and safe door hardware, you can rest assured that your hotel guests will enjoy a pleasant and secured stay at your establishment.

**Our solutions:**

Pool, gym, retail shops & restaurants

**Aesthetically pleasing, durable and safe door hardware products:**

- Sliding door track
- Concealed door closer
- Door stopper, push plate

Guest & meeting rooms

## Gift your guests with five-star sleep experience with the best security and accessibility

Guest and visitor safety is at the heart of everything we do. Our solutions are designed to offer you peace of mind and ensure your guests have a safe, comfortable and memorable stay.

### Our Solutions:

- Electronic access control
- Concealed door closer
- Anti-bacterial handles
- Sliding door track
- Fire rated doors

Back end area

## Help your staff get around faster and with ease

Do not let worries about back-end areas's safe access slow down your operations. You'll be able to devote more time and energy to providing excellent service to your guests thanks to the seamless mobility made possible by our solutions. You can easily manage complex back-end areas with our integrated access technologies and quality opening hardware. Ensuring guests can get around safely and without hassle while keeping your facilities running smoothly.

### Our solutions:

- Electronic master key system
- Electronic access control
- Fire rated doors
- Door closer with safe zone close feature

## Emergency exits

# Gear up for a smoother, safer and more secure evacuation to safeguard your guests and employees

When emergencies strike, time is of the essence. This is why our solutions are intended to facilitate a speedy and painless exit during critical times. You can be confident that your structure will be safe even in the most dire circumstances.

### Our solutions:

- Heavy duty barrier free door closer
- Integrated electromechanical overhead door closer
- ePED® panic exit device

Create Access Solutions

# Specs is our flex

ASSA ABLOY takes pride in offering a total solutions portfolio for hospitality sector that fits into any facility, anywhere. Perhaps even more valuable than the products themselves is the guidance we offer throughout the process of specifying, purchasing, manufacturing, installing, and servicing them to meet your exact needs.

## Expert supports:

We have tools for every stage of your project, be it new construction or a retrofit application:

- Architectural and specification consulting
- Building Information Modeling (BIM) support with ASSA ABLOY Openings Studio
- Educational programs, including online, hands-on, and continuing education credit
- Site surveys and one-on-one consultations
- Expert compliance support for local, national and third-party sustainability codes and standard

Chat with our specs expert for advice

# Analyze GRAPHISOFT® Archicad® 3D projects

You can extract 3D building views as well as openings information, PDF drawings, door schedules, and openings with associated parameters from Archicad using the Openings Studio add-on for Archicad 23 or 24. This is a significant step forward in the evolution of our software integrations, and we are proud to be the only solution provider that can analyze projects with 3D views in both Revit and Archicad.

After analyzing a project, you will see this purple icon in the Project Search Screen, which is used to represent Archicad projects. This will help to differentiate between analyzed Revit® and Archicad® projects.

Learn more about the analyze process for Archicad by [visiting the Openings Studio Knowledge Base](#) or download installers, go to [bit.ly/Download-OS-ARCHICAD](https://bit.ly/Download-OS-ARCHICAD).

## Corporate information

### The ASSA ABLOY GROUP
