

# CLIQ® Go

Access control at your fingertips

## ASSA ABLOY Opening Solutions

### Manage your security via CLIQ® Go

#### Because your business is constantly changing

#### Do you recognise this situation?

Managing a business means that you will constantly be on the move. While you are away, security needs change: new staff join, keys are lost and access rights need to be updated. CLIQ® Go enables you to manage the security from your mobile device or via a web site.

CLIQ® Go takes access control to the cloud so you can manage your security anytime, anywhere

Schedule access to your rooms, or give contractors time-limited access

As your business grows, you can easily expand the system

If a key is lost, you can revoke access via CLIQ® Go

In a busy world, you need security systems that are flexible, leaving you to focus on growing your business.

#### It's easy to manage lost keys ...

Lost keys are a serious security risk. With CLIQ® Go, you can revoke access rights anytime, anywhere.

Your receptionist informs you about the lost key.

You revoke the lost key via CLIQ® Go, wherever you are.

The receptionist programmes a key to block the lost key in the doors.

#### ... and change the access rights

Access right needs can change very quickly and you need to react fast. CLIQ® Go allows you to manage access rights in real-time.

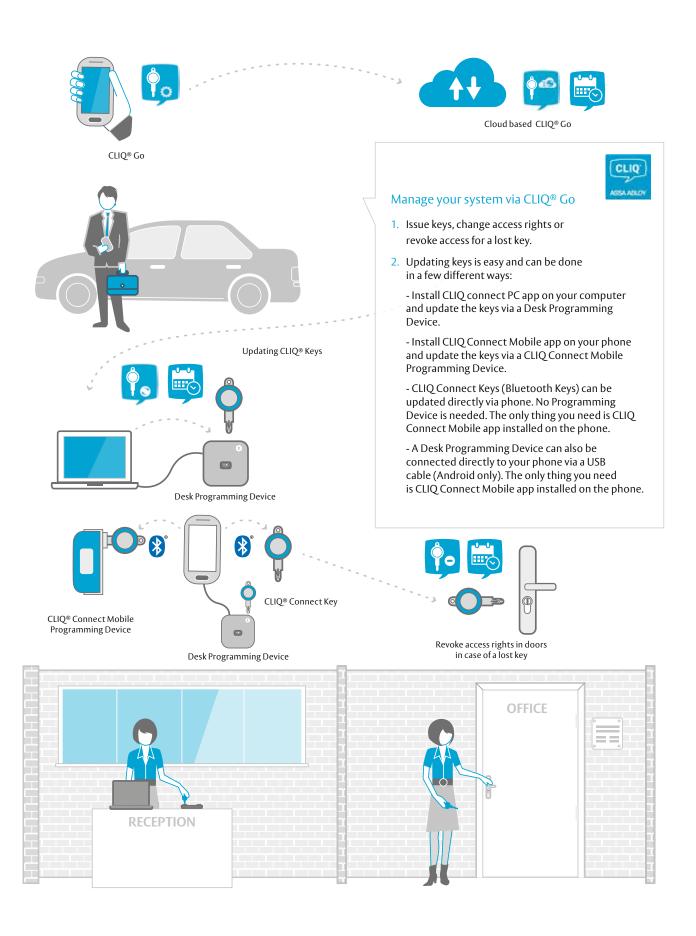

Your employee needs access to a new door.

You change the access rights in real-time via CLIQ® Go. The employee then simply updates the key.

Your employee is granted access with minimal fuss.

#### Businesses do not stand still

As your company grows, you need to know that your security system is flexible.

Your locksmith can easily add additional keys and cylinders to your system.

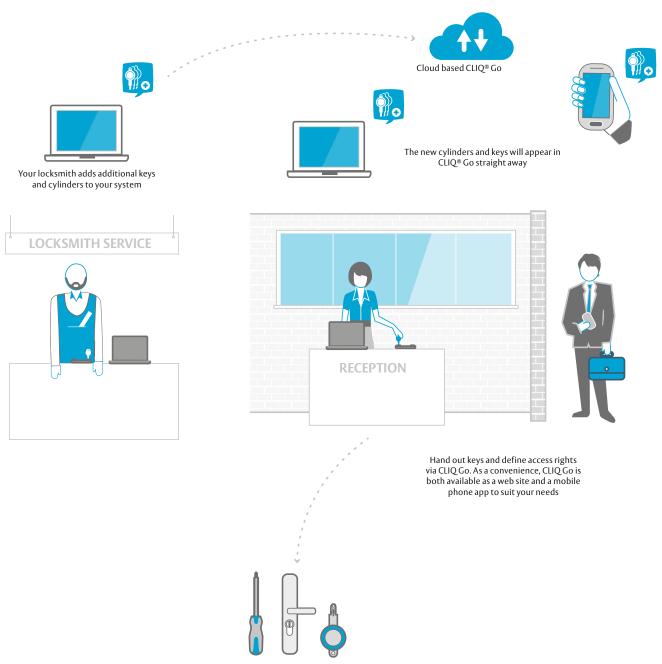

You can view the cylinders and keys in CLIQ $^{\circledR}$  Go straight away.

Installation is quick with minimal disruption.

#### How does it work?

The locksmith hands over the keys and installs the cylinders in the doors

Key holders can easily update their key using CLIQ programming devices. CLIQ Connect keys can be updated via a mobile phone app making access management quick and easy.

#### CLIQ® Go

The locking system that keeps your business on the move.

- · ASSA ABLOY eCLIQ™ is available in a wide range of cylinders and locks.
- · Battery is in the key, no wiring needed.

· CLIQ® Programming Devices for keys, available in a Desktop and Mobile version. Programming Devices are not needed when using CLIQ Connect Keys (Bluetooth Keys).

· The cloud-based system means that CLIQ® Go works seamlessly on multiple platforms. As an option your locksmith can manage the system as a service.
