Explore your full potential

Are you looking for a meaningful way to complete your Master Thesis? Join us at ASSA ABLOY - a global leader in access solutions - and open the door to your future.

ASSA ABLOY is the global leader in access solutions and provides the latest technologies to give access to physical and virtual spaces for millions of people every day. Joining ASSA ABLOY means being part of a fast-moving and highly innovative company with diverse opportunities in more than 70 countries worldwide

What can you expect as a master's thesis intern at ASSA ABLOY? Cutting edge technology, a steep learning curve, dedicated supervisors from within the enterprise, a group of fellow master's thesis students to share the experience with – and much more

Ready to open doors to your future?

Master Thesis Program Stockholm

Each year, we welcome Master Thesis students from diverse engineering disciplines – mechanical, electronics, computer science, industrial engineering and finance.

Over six months, you'll dive into real-world challenges, supported by experienced managers and our vibrant student community, former thesis students who now work with us.

Social activities after works will help you build your network and feel at home from day one

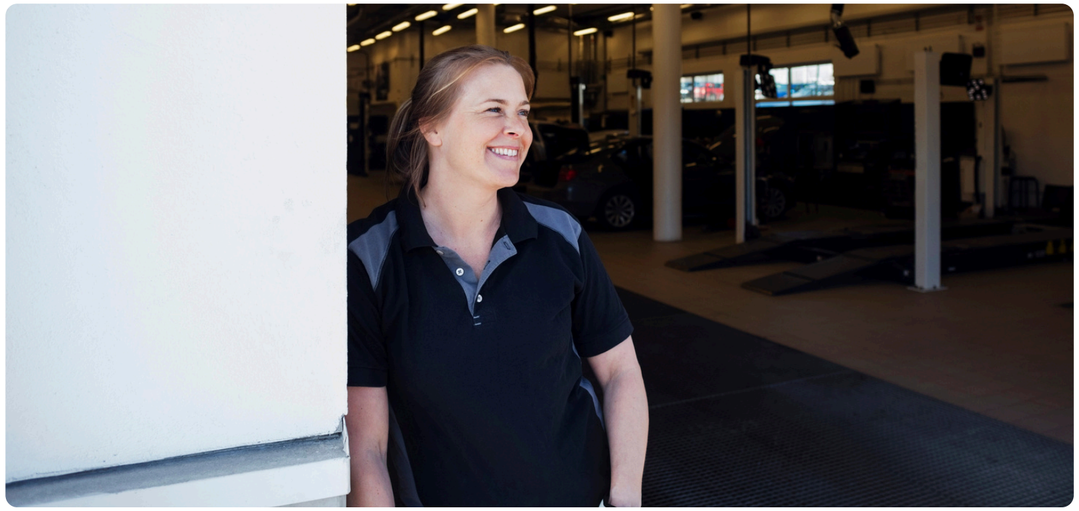

We are ASSA ABLOY

Our people have made us the global leader in access solutions. In return, we open doors for them wherever they go.

With nearly 64,000 colleagues in more than 70 countries, we help billions of people experience a more open world. Our innovations make all sorts of spaces – physical and virtual – safer, more secure, and easier to access.

We value results – not titles or backgrounds. We empower our people to build their careers around their aspirations and our ambitions, supporting them with feedback, training, and development opportunities.

We welcome diverse perspectives and experiences and are committed to building inclusive teams

FAQ

When does the application open?

The application opens in mid/late October and will remain open for approximately four weeks. All topics are shared on LinkedIn and our career page.

How long is the program?

The program is 6 month long. We start in mid-January and finish in mid-June.

Is participation on-site or online/hybrid?

We recommend that you are on-site in Stockholm. Being physically present helps you get to know ASSA ABLOY, our culture, and the colleagues you will collaborate with. A hybrid setup is possible in certain cases, but please note that we have a few mandatory in-person sessions where you are required to be on-site in Stockholm.

Can I write individually or as a pair?

We accept students who wish to write either individually or in pairs. In some cases, we specifically request pair work, and this will be clearly stated in the advertisement.

Topics

This year, we have a range of topics available.
Please note that the deadline to apply for this year's master's thesis program is **November 30.**
