

KESO 6000FP2

SWISS MADE

KESO 6000FP2:
Patented security
until 2036

Experience a safer
and more open world

Best Swiss quality at the best price:

Ideal for residential construction and smaller businesses

It is simply a good feeling if you can feel completely secure in your home and in your business: Unauthorised additional keys cannot be ordered for KESO 6000FP2. This is guaranteed by the patent valid until 2036. Even after 2036, duplicate keys can only be ordered with a security card.

KESO 6000FP2 is a secure investment in state-of-the-art technology and the best Swiss quality for new buildings and renovations. The tailor-made portfolio also makes planning, ordering, installation and operation extremely easy.

Overview of advantages:

1. Patent protection until 2036 safeguards your investment in the long term
2. KESO 6000FP2 combines state-of-the-art Insert technology and Swiss quality at the best price
3. User-friendly reversible keys: No matter with which side the key is inserted into the cylinder, it always fits
4. The mechanical system can be easily supplemented with electronic components
5. Also other building projects with small to medium sized master key systems can be equipped and managed with KESO 6000FP2

Patented security
until 2036

Flexible

can be flexibly combined with
electronic components

KESO 6000FP2 offers a cost-effective alternative to the high-end KESO 8000Ω² system. Flexible combinations and authorisation options enable the mechanical system to be easily supplemented with electronic components. Regardless of whether digital fittings, readers or Aperio cylinders are used.

The optional RFID chip in the colour cap key can also be used to operate time recording systems or beverage and snack vending machines – a further advantage for smaller businesses in particular.

Additional and replacement
keys only with security card

Portfolio tailored exactly to your requirements

Mechanical components
seamlessly interconnect
with one another.

For basement
compartments,
for example

Universal cylinder

For letterboxes,
for example

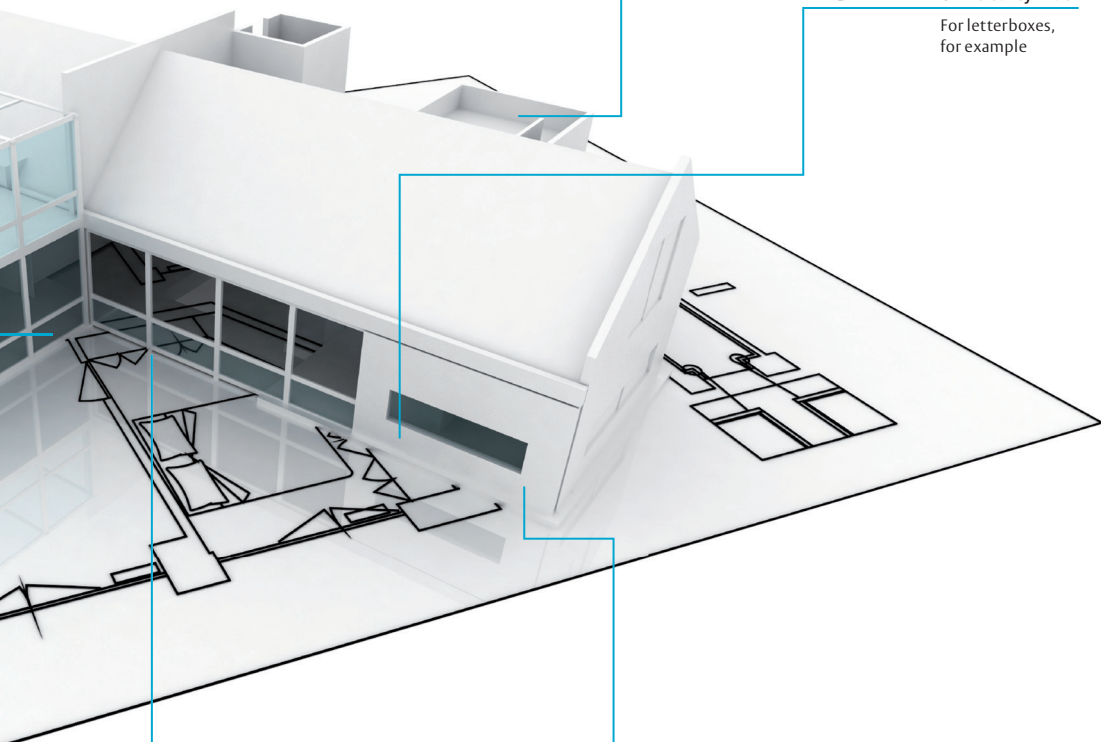

Cylinder olive

For standard
espagnolette locks or
metal cabinets

Outer cylinder

For garage doors,
for example

User-friendly and convenient

Residential units and companies with a manageable locking system size can be served easily and conveniently with the KESO 6000FP2 system. The portfolio of available cylinders was deliberately kept at a manageable size for this purpose. Cylinder types are available for apartment, furniture and cabinet doors, for example, but also for letterboxes, garages or lift controls.

KESO 6000FP2 is available as a Swiss round profile cylinder and euro profile cylinder and in all versions shown opposite.

The ASSA ABLOY Group is the global leader in access solutions. Every day we help people to feel safer and more secure and to experience a more open world.
