- Fire-resistant and smoke-proof (FH+RD)
- Surface: silver anodised finish EV1, stainless steel satin anodised (INOX) or black C35 satin anodised

Planet **KG-S narrow**

- Suitable for all glass thicknesses, also for wooden, PVC and metal doors
- Glued on the side with UV glue or double-sided tape
- Ready for use immediately after installation thanks to the fixing screws supplied
- Suitable for ESG safety glass and VSG multiple-walled glass widths

Versions

- Fire-resistant and smoke-proof (FH+RD)
- Surface: silver anodised finish EV1, stainless steel satin anodised (INOX) or black C35 satin anodised

The drop-down seals with optimised design and new cover plates Planet KG-F narrow, KG-A narrow and KG-S narrow are also available in black.

Thanks to the new mechanical fixation, our seals for glass doors are even easier to mount!

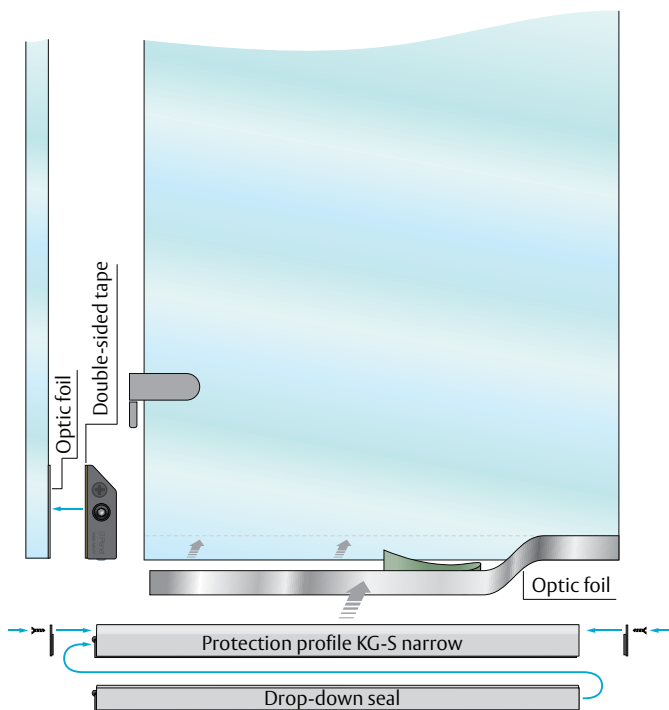

With the optimised seals for glass doors, even more time can now be saved during installation, as glue, silicone or UV adhesive can be dispensed with completely, thus eliminating waiting times for drying.

Assembly

Planet **KG-S narrow**, Planet **KG-SM-Set narrow**

Advantages:

- Enables DIN L and DIN R to be changed
- Easy to replace at any time
- Individual special colours available
- Easy to retrofit

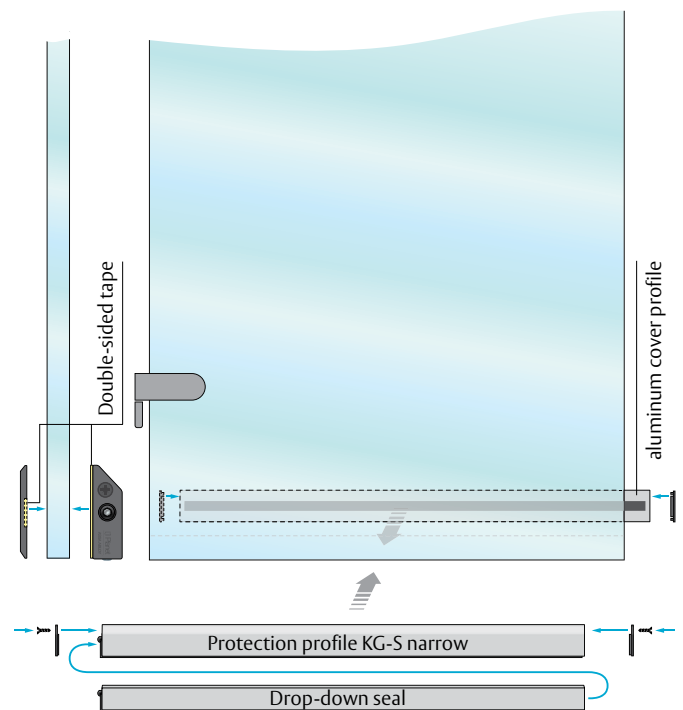

Simple installation (Illustration KG-SM-Set):

1. Attach the optical foil
2. Screw on the cover plates
3. Glue on the protection profile
4. Done!

Planet **KG-SC-Set narrow**

Advantages:

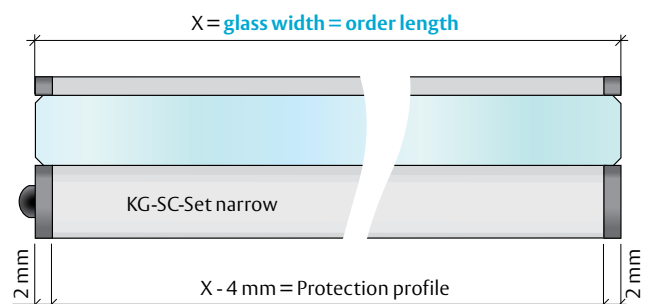

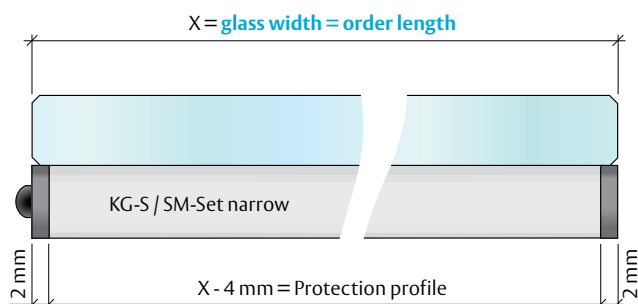

- Enables DIN L and DIN R to be changed
- Easy to replace at any time
- Individual special colours available
- Easy to retrofit

Simple installation

1. Attach the aluminium cover profile onto the glass
2. Screw on the cover plates
3. Glue on the protection profile
4. Done!

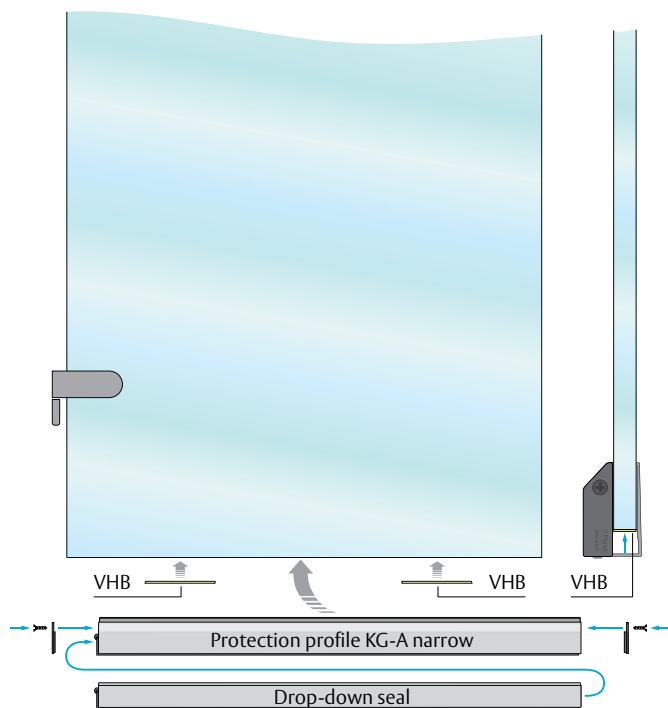

Order length (view from above)

Planet KG-A8 | A10 | A12 narrow

Advantages:

- Enables DIN L and DIN R to be changed
- Easy to replace at any time
- Individual special colours available

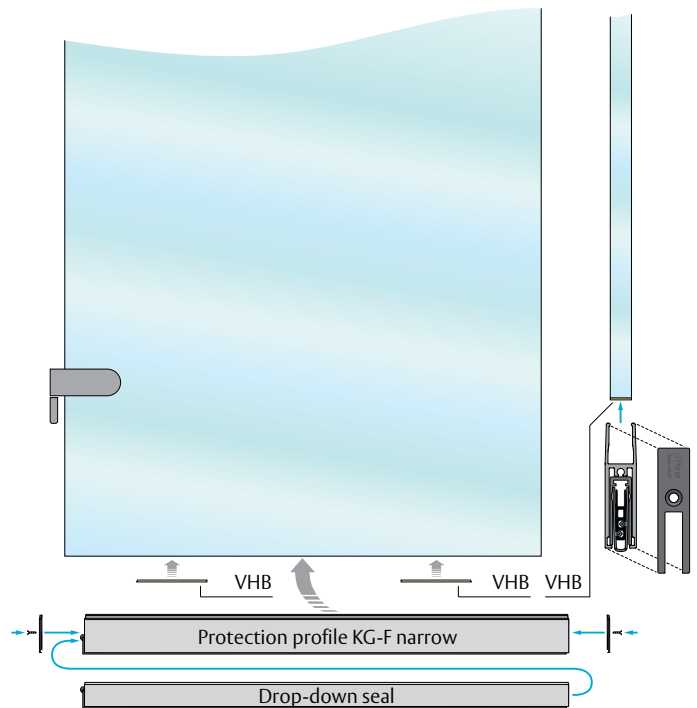

Simple installation:

1. Attach double-sided VHB adhesive tape to glass
2. Screw on the cover plates
3. Glue on protection profile
4. Done!
