- 07** A flexible, futureproof access solution for access control
- 08** How can you manage access better?
- 09** How do you open doors and other areas?
- 10** What access points can you secure?
- 12** These companies trust Incedo Business

A photograph of three business professionals walking through a modern office building. In the foreground, a woman with curly hair, wearing a black blazer over a white shirt and blue jeans, is smiling and looking down at her smartphone. Behind her, another woman with long dark hair is looking down at a white coffee cup. To the right, a man with a beard, wearing a dark blazer over a light blue checkered shirt and dark trousers, is smiling and looking towards the camera while holding a white coffee cup. He has a brown messenger bag slung over his shoulder. The background is a blurred view of a modern office interior with wooden slatted walls and glass railings.

*In a fast moving, ever changing world FLEXIBILITY is key.*

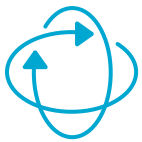

*Your day-to-day business is digital.  
It needs an agile access solution  
which keeps you moving.*

# Access challenges of small and medium- sized businesses

The way we **live, work**  
and **move around buildings**  
is continually evolving.

Whether you're office staff, a co-worker or  
manufacturer, your access solution should enable:

Flexible workforces

Efficient workflows

Hybrid working

Smarter space usage

# Access Control in the Cloud with Incedo Business is the right solution for many different company types.

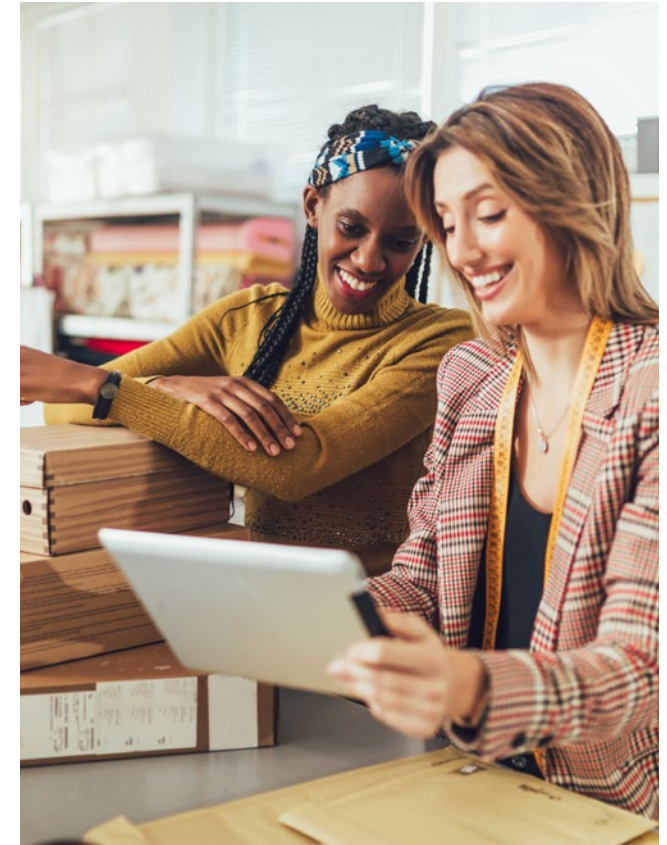

Co-working

Offices

Manufacturing facilities

# A flexible, futureproof access solution for your business

**Incedo Business Cloud** is **future-proofed** access control, a **highly flexible** solution for small to medium sized businesses. As your business evolves, Incedo adapts to your needs.

## Advantages for your business:

Access management built around staff, workflows and spaces

No more problems or costs from lost keys

Freedom to choose your hardware and credentials

Platform-based futureproof software

Automated updates and trusted cloud-security

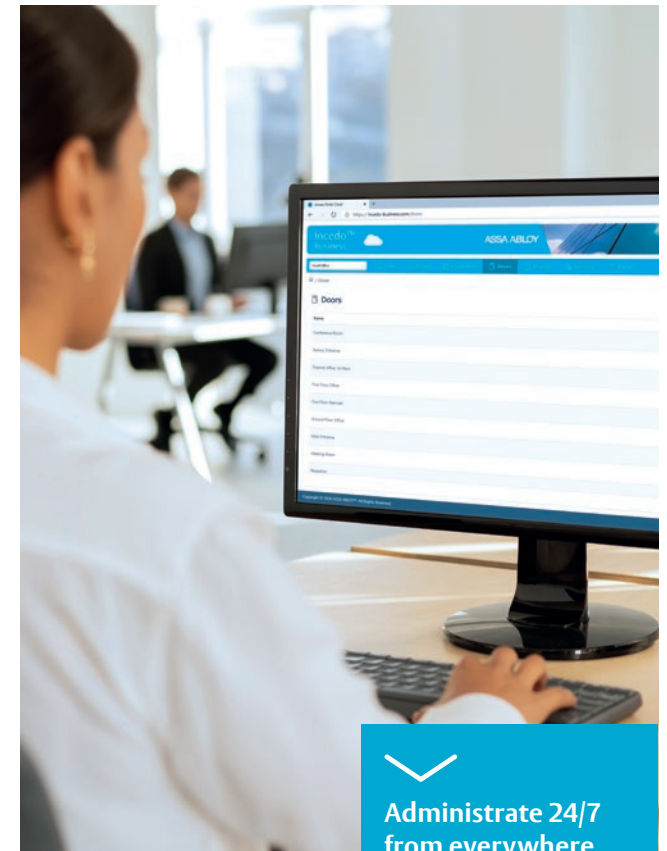

Easy expansion when business needs change

Support from the start and through your deployment

More time to concentrate on your business

Administrate 24/7 from everywhere.

# How can you manage access?

In **ONE** secure system in the cloud.

## Benefits for your business:

Round the clock  
management

Control multiple  
buildings from  
anywhere

Integrate hardware to  
work together both  
online and offline

Manage security in real-  
time or autonomously

Send access rights  
directly to users

Software-as-a-service  
(SaaS) subscription to  
manage cloud

Remote technical  
support or on-site  
maintenance available

All data is stored  
securely in the Cloud

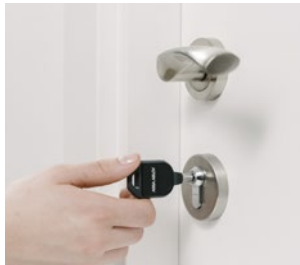

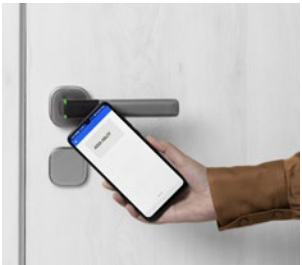

Save costs by installing  
autonomous products

# How do you open doors and other areas?

Incedo offers you **choice** based on your **individual requirements**

For straightforward management via the Incedo Business access control system:

## Mobile keys on smart phones

No need to hand over physical credentials to users. Digital keys can be issued or revoked immediately.

## Smart keys

PULSE energy harvesting keys generate their own power when they are inserted into cylinders, no batteries or wires are needed.

## Smart cards

Smart cards support multiple RFID technologies via the Incedo Business access control system.

**It's your choice:**  
The access hardware can be operated with either smart phone, smart keys or smart cards.

# What access points can you secure?

## Many, all on one system

Depending upon your individual building, Incedo Business helps you to modernise the work environment to offer a secure business where users feel comfortable with easy access to areas they need to.

You can select from a wide range of wireless and wired access hardware.

There are many benefits of having both wireless and wired locks and readers:

Wireless solutions are battery-powered or self-powered and don't need complicated cabling and installation – bringing access control beyond doors.

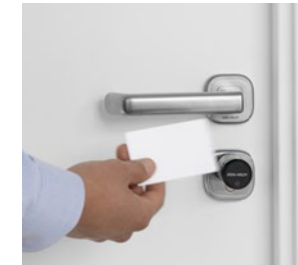

Wired solutions are mainly used at entrance areas with high security needs.

**Entrance door with wired reader**

**Office door with wireless handle**

**Meeting room door with wireless cylinder**

**Office door with wireless cylinder**

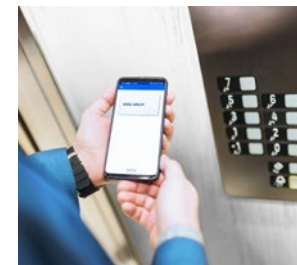

**Office door with wireless cylinder**

**Cabinet lock with wireless cylinder**

**Cabinet with wireless cylinder**

**Elevator with wireless cylinder**

**Server with wireless lock**

**Gates or remote assets with wireless padlock**

*Our worklife is changing –  
With Incedo Business Cloud you  
can relax and adjust if needed*

## These companies trust Incedo Business

Incedo supplies flexible access control to Clockwise, a flexible workspace provider.

“The flexibility to create groups and the ability to remotely update cards both work really well for our business.”

Incedo offers Makita a single solution for multiple security challenges and door types.

“The diversity of access control devices available for an Incedo system was a decisive factor.”

Electric bike hire operator Kolovna appreciates Incedo's scalability and secure cloud system.

“Apart from product security, the biggest benefit of the collaboration with ASSA ABLOY included consultations on, and the preparation and subsequent implementation of the system”

A woman with voluminous dark curly hair is sitting in a black leather office chair, smiling as she looks at a silver laptop. She is wearing a black blazer over a blue and white striped button-down shirt. The office environment is blurred in the background, showing a desk lamp and a coffee cup. A teal banner is overlaid at the bottom left of the image.

*Switching to Incedo Business Cloud saves costs and provides you the FLEXIBILITY you need to grow your business.*
