

Primo Software

Intelligent access control, simplified

Primo is an effective solution for upgrading your existing ASSA ABLOY Incedo™ access control system. With a range of enhancements already in development, Primo is a future-proof software solution designed to safeguard your buildings and everyone who uses them.

Mobile and biometric access for enhanced security

Comprehensive reporting provides valuable insights

Seamless integration with both internal and third-party hardware and software

Easily manage and control access across multiple sites from a central point

Local site validation ensures continuous security

Secure web interface for remote management from anywhere over the internet

Intuitive usability

User-friendly wizards guide you through every step, making configuration and onboarding easy and convenient.

Customizable set-up

Tailor your experience by customizing views and creating unique credential-holder types to adapt the system to your specific needs.

Scalable system

Easily manage up to 10,000 doors and 1 million credential holders within a single facility, or scale to 250 facilities, all through a centralized database.

Advanced protection

End-to-end encryption and advanced security protocols ensure that your access control system is resilient and reliable.

Primo Software

Features V1.5

Integrations

- API
- Idemia and Control ID biometrics
- Aperio locks via IP hub (application controller required) or RS485 hub
- HID mobile access and STid mobile access

Hardware support

- Distributed controller, Cluster controller, Application controller
- HID Signo readers and any other third-party reader
- Idemia facial, wave and fingerprint readers
- Control ID facial and fingerprint readers

Software features

- Single-site management
- Multi-site management
- Operator security
- Enrolment
- Custom credential-holder types
- Custom fields
- Credential-holder import
- Access groups, areas and access time patterns
- Anti-pass-back and zone routing
- Door management
- Device time patterns
- Transaction monitoring and dashboard
- Alarm monitoring
- Hardware monitoring
- Languages: English, French

Reports

- Absenteeism (this week)
- Absenteeism (today)
- Access groups
- Areas
- Card expiry
- Enrolments
- First in / Last out
- Hardware installation
- Holidays
- Hours worked
- General mustering
- Still on site
- Alarm transactions
- Denied transactions
- Status transactions
- Time and attendance
- Transactions
- Zone occupancy

Primo Software

System limits V1.5

	Sites	Credentials	Doors	Credential holders
APP905	1	200	10	200
APP910	2	500	20	500
APP915	5	1,000	30	1,000
APP920	10	2,000	50	2,000
APP930	25	5,000	100	5,000
APP935	25	250,000	200	125,000
APP940	250	250,000	500	125,000
APP945	250	250,000	1,000	250,000
