## Comments by the President and CEO

### Strong performance in the third quarter

The positive earnings development continued during the third quarter. Total sales grew by 13% with an improved underlying operating margin. Sales growth in the quarter was driven by organic growth of 4%, acquired net growth of 4% and positive currency movements of 5%. Organic growth was strong in Americas (6%) and Global Technologies (6%). Entrance Systems and EMEA reported good growth (3%), while sales in Asia Pacific declined (-1%).

Operating income increased by 14% to SEK 3,894 M, driven by good operating leverage. The operating margin was unchanged at 16.2%, but if adjusted for acquisition costs of SEK 55 M related to agta record, the margin increased by 20 basis points. The underlying improvement was driven by lower raw material costs, prices increases and operational improvements.

Operating cash flow was very strong and improved by 47% to SEK 4,401 M, driven by the improved earnings and working capital reductions. Our cash conversion in the guarter was 113%.

Overall, the underlying growth slowed somewhat in the quarter. As new construction indices continue to trend down in some of our more important markets and geopolitical challenges remain, the market conditions have become more challenging and uncertain.

Against that background I am pleased with our strong operational execution. It is encouraging to see that the mitigating actions we initiated last year to compensate for higher raw material costs, have resulted in strong improvements in operating leverage generally and for Entrance Systems, Americas and EMEA in particular.

The negative organic sales growth in Asia Pacific during the quarter was mainly driven by a weak South Korean market and negative growth in China. We are continuing the implementation of our new Chinese business plan where margins are now stabilizing and where we are seeing the first small results from the actions initiated.

Our restructuring programs also continued to advance well and generated savings of around SEK 200 M in the quarter. Due to the high speed of implementation of the most recent program, this level will slow down from the next quarter and in 2020 we expect the savings to be about SEK 300 M.

### Acquisitions will add growth

With the acquisitions already announced, and assuming the consolidation of agta record, we have reached our acquisition target of 5% for 2020. Nevertheless, we will continue to work actively on our acquisition pipeline.

Finally, I would like to thank you for your interest in ASSA ABLOY and take this opportunity to inform you that we will host our next Capital Markets Day on 13 May 2020 in London.

## Accounting principles

ASSA ABLOY applies International Financial Reporting Standards (IFRS) as endorsed by the European Union. The same accounting and valuation principles as in the latest Annual Report have been applied, with the exception of new and changed standards and interpretations that came into force on 1 January 2019 and are described briefly on page 18. This Report was prepared in accordance with IAS 34 'Interim Financial Reporting' and the Annual Accounts Act. The Report for the Parent company was prepared in accordance with the Annual Accounts Act and RFR 2 'Reporting by a Legal Entity'.

From 1 January 2019 ASSA ABLOY is applying IFRS 16 'Leases' and IFRIC 23 'Uncertainty over Income Tax Treatments'. The financial effects of applying these standards are described in more detail on page 18.

ASSA ABLOY makes use of a number of financial performance measures that are not defined in the reporting rules that the company uses – so-called 'alternative performance measures'. For definitions of financial performance measures, refer to Page 19 of this Report and to the company's latest Annual Report. To check how the financial measurements have been calculated for current and earlier periods, refer to the tabulated figures in this Quarterly Report and to the company's Annual Report. The Annual Reports for the years 1994 to 2018 appear on the company's website <a href="https://www.assaabloy.com">www.assaabloy.com</a>.

Totals quoted in tables and statements may not always be the exact sum of the individual items because of rounding differences. The aim is that each line item should correspond to its source, and rounding differences may therefore arise.

## Transactions with related parties

No transactions that significantly affected the company's position and income have taken place between ASSA ABLOY and related parties.

## Risks and uncertainty factors

As an international Group with a wide geographic spread, ASSA ABLOY is exposed to a number of business, financial and tax-related risks. The business risks can be divided into strategic, operational and legal risks. The financial risks are related to such factors as exchange rates, interest rates, liquidity, the giving of credit, raw materials and financial instruments. Risk management in ASSA ABLOY aims to identify, control and reduce risks. This work begins with an assessment of the probability of risks occurring and their potential effect on the Group. For a more detailed description of particular risks and risk management, see the 2018 Annual Report.

## Review

The Company's Auditors have not carried out any review of this Report for the third quarter of 2019.

## New accounting standards

#### **IFRS 16 Leases**

Within the Group there are a large number of current lease contracts, mostly relating to offices, premises and vehicles. The Group reports a right-of-use asset and a lease liability representing the present value of future lease payments in the balance sheet on the day that the leased asset is made available for use. In calculating the present value, the Group's incremental borrowing rate by currency is used.

The right-of-use asset is depreciated on a straight-line basis over the lease term, or over the period of use of the underlying asset if the lease transfers ownership of the underlying asset to the Group by the end of the lease term. The depreciations are reported as costs within operating income while interest expenses relating to the lease liability are reported in finance net.

The Group has chosen not to report any right-of-use asset and lease liability concerning obligations for short-term leases and leases of low value. Lease payments relating to such leases are reported as operating expenses over the lease term.

#### Financial effects of the transition to IFRS 16

The Group applies IFRS 16 from 1 January 2019. For the transition to the new standard, the Group's liability arising from obligations for operating leases is SEK 3,718 M. Adjusted for advance lease payments, the liability is SEK 3,711 M. The Group's total lease liability at the beginning of 2019, including financial lease liability recognized in accordance with IAS 17, is SEK 3,802 M. The total value of the Group's right-of-use assets, including rights of use recognized in accordance with IAS 17, amounted to SEK 3,837 M on 1 January 2019.

The new standard thus results in an increase in the Group's capital employed and a corresponding increase in net debt. The standard also has a slight positive effect on operating income because part of the lease payments are reported as interest expenses in finance net. The new standard had no significant effect on net income in the quarter and is not expected to have any significant effect on the year's net income going forward.

In the statement of cash flows the lease payments are split between interest paid in cash flow from operating activities and repayment of lease liabilities in financing activities. This means that the standard has a positive effect on the Group's cash flow from operating activities.

In the operating cash flow, the Group has chosen to include repayment of lease liabilities as an operating component from 1 January 2019. The Group's operating cash flow will therefore continue to be comparable with earlier periods.

In the transition to IFRS 16, the Group has applied the cumulative catch-up approach as transition method and does not restate any comparative information. However, the Group has chosen to report right-of-use assets and lease liabilities on separate lines in the balance sheet from 2019. As a result of this, assets and liabilities relating to finance leases accounted for in accordance with IAS 17 are being reclassified to the new balance sheet lines in the comparison periods.

In ASSA ABLOY's Annual Report for 2018, under Note 6, there is a detailed explanation of how the lease liability on 1 January 2019 is derived from the Group's operating lease obligations on 31 December 2018.

### IFRIC 23 Uncertainty over Income Tax Treatments

IFRIC 23 explains how an entity should determine the method with which a transaction should be measured and recognized when there is uncertainty over income tax treatments. The Group applies the new guidance commencing on 1 January 2019. In conjuction with the application, the Group reassessed its uncertain tax positions based on the new guidance, which resulted in an increased provision for uncertain income taxes of SEK 234 M. The Group has chosen a modified retrospective approach for initial application of the interpretation, in which comparative figures are not restated. The effect of initial application is recognized as an adjustment to equity in 2010.

## Definitions of financial performance measures

### Organic growth

Change in sales for comparable units after adjustments for acquisitions and exchange rate effects.

### Operating margin (EBITDA)

Operating income before depreciation and amortization as a percentage of sales.

### Operating margin (EBITA)

Operating income before amortization of intangible assets recognized in business combinations, as a percentage of sales.

### Operating margin (EBIT)

Operating income as a percentage of sales.

### Profit margin (EBT)

Income before tax as a percentage of sales.

### Operating cash flow

Cash Flow from operating activities excluding restructuring payments and tax paid on income minus net capital expenditure and repayment of lease liabilities.

### Net capital expenditure

Investments in, less disposals of, intangible assets and property, plant and equipment.

### Depreciation and amortization

Depreciation and amortization of intangible assets, property, plant and equipment and right-of-use assets.
