Experience a safer
and more open world

Aperio H100 wireless electronic handle

Simple. Secure. Stylish.

Add access control capability to any interior door

Energy-saving
and low carbon

Fits most
interior door types

Multi-credential
authentication

No need
to drill doors

Aperio H100 packs the power and flexibility of wireless access control into one slim, cleverly designed, battery-powered door handle. With easy retrofitting to almost any interior door and comprehensive RFID support, Aperio H100 handle makes it cost-effective to boost security for sensitive offices, storerooms, archives, meeting rooms and more.

Key benefits:

- The easiest way to add access control to a mechanical lock without drilling
- Robust, wireless device designed for high-traffic environments
- Compatible with most common European (DIN) and Scandinavian mortise locks
- For wooden, steel and tubular-frame doors (and glass doors with standard lock cases)
- Fire certification: EN1634-1
- A new satin chrome surface treatment meets ASSA ABLOY's global design standards. This ensures the H100 complements other ASSA ABLOY products you have installed in the building
- Keep your existing mechanical cylinder
- Straightforward integration with third-party access control systems
- Works with an online system or as an offline lock
- Discrete handle with minimum footprint and contemporary design
- LED for instant status visualisation
- Takes one screw to replace handle batteries
- Compatible with multiple RFID technologies, including iCLASS®, Seos®, MIFARE®, DESFire and Legic®
- Aperio is mobile ready: NFC and BLE (Bluetooth Low Energy) are enabled

Works with mobile and most RFID technologies simultaneously

Robust design for all interior applications – plus online and offline access control

Wireless installation – no drilling needed
