ASSA ABLOY

Experience a safer and more
open world

The V-Touch key management system by Traka brings all the traditional benefits of our core Touch systems in a neat compact design.

The V-Touch has been designed to manage critical keys at multiple locations where space is at a premium and only a few keys need to be managed at each location. This could include ships and remote locations requiring maintenance.

The system can accommodate up to 5 sets of keys and has a range of other features. There is a minimum order quantity for this product.

Features

- 7" Touch Display
- Powered by Traka designed electronics
- Built-in power supply
- Optional battery back-up
- Solid locking door
- Available as a networked solution with Traka Web software
- Reader or biometric access options available
- Power consumption: 25W
- Dimensions: 225mm x 420mm
- Operating temp: Indoor use only (-5°C to +40°C)

Benefits

- Secure unit with controlled access to authorised users only
- Full audit so you know who has had what keys and when
- Can be networked with other Traka solutions for centralised control of your valuable keys
- Usage reports can be accessed via Traka Web software

The ASSA ABLOY Group is the
global leader in access solutions.
Every day we help people feel
safe, secure and experience a
more open world
