Solution brochure

Control iD biometric readers

Access control that works smarter

One platform. Unlimited possibilities.

Control iD biometric identification integrates easily into new or existing access control infrastructures, helping customers improve security without increasing complexity. From single-door installations to multi-site deployments, Control iD delivers reliability today and scalability for tomorrow.

Fast and secure

Contactless biometric identification - fast, hygienic, and reliable

Versatile deployment

Ideal for corporate, industrial, residential, and critical infrastructure

Scalable solution

From single doors to large multi-site deployments

ASSA ABLOY ecosystem

Part of the Digital Access Solutions portfolio and Primo-ready out of the box

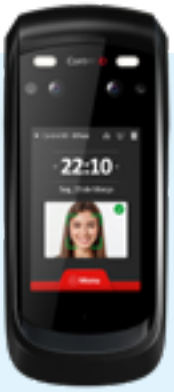
Empower your access control

Secure people, simplify access, and modernize your building with Control iD biometric readers. Designed for reliability, scalability, and seamless integration, the readers deliver advanced facial identification and biometric access control for a wide range of applications. Enhance authentication on the same device with cards, passwords, or QR codes to boost both security and flexibility.

iDFace Max

Premium facial identification for demanding environments

- Identification of up to 100,000 faces with liveness detection
- 7” LCD capacitive touchscreen display and embedded web software enable intuitive navigation and simplify access management
- Enhanced processing power for high-traffic locations



iDFace

Advanced facial identification for secure, contactless access

- Identification of up to 30,000 faces with liveness detection
- 3.5” LCD capacitive touchscreen display and embedded web software facilitate access rule management
- Ideal for modern workplaces looking for fast access control

iDAccess Pro

High-precision optical fingerprint identification

- Biometric identification of up to 100,000 fingerprints
- 3.5” LCD resistive touchscreen display and embedded web software facilitate access rule management
- Ideal for controlled entry points and restricted areas

Make your access ready for what's ahead
