Experience a safer  
and more open world

# The ASSA ABLOY Group

The global leader in access solutions

ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a safer and more open world. ASSA ABLOY Opening Solutions leads the development within door openings and products for access solutions in homes, businesses and institutions. Our offering includes doors, door and window hardware, mechanical and smart locks, electromechanical locks, access control solutions and service.

With over 150 companies operating in more than 70 countries, the Group is the strongest global player in the industry with over 61,000 employees and more than SEK 141 billion sales worldwide.

Today, ASSA ABLOY is the leading global supplier of intelligent lock and security solutions. Its products account for more than one in ten of all lock installations worldwide.

ASSA ABLOY Group is represented in all major regions, on both mature and emerging markets, with leading positions in many markets all over the world.

In the rapidly growing electromechanical security sector, the Group has a leading position in fields such as access control, identification technology, automatic doors and hotel security.

ASSA ABLOY's vision is to be the most innovative supplier of total door opening solutions in order to deliver safe and convenient security solutions that provide real added value to customers.

Using the latest 'technologies together with tried and tested' techniques, we are constantly developing innovative solutions that improve our customers' lives through greater security, safety and convenience.

ASSA ABLOY has been producing an annual sustainability report based on GRI (Global Reporting Initiative) guidelines since 2005. We are leading the way, with more than 250 environmental product declarations across the Group since 2008.

Sustainability is integrated in all Group processes: innovation, product development, manufacturing, logistics and sales.

## Pull Handle

A pull handle, also known as a door pull or handle, is a type of door hardware designed to provide a grip for opening and closing doors easily. Pull handles typically consist of a solid, elongated structure, such as a bar or rod, that protrudes from the surface of the door. They offer a comfortable grip and leverage for users to exert force when operating the door, enhancing user convenience and accessibility.

# Pull Handles

## Feature & Benefits

### Pull Handle

#### Key features:

- Made of SS 304
- Exclusive range
- Concealed mounting

#### Benefits

- High corrosion resistance
- High durability
- Choice of design
- Suitable for external environment

#### Technical details:

- Tubular Pull Handle
- Door thickness  
30mm to 50mm - Timber & Metal door  
10mm - 12mm - Glass door
- Spindle - 8mm X 8mm
- Available length (CTC): 350-1500
- Back to back bolting arrangement
- Optional one side fixing
- Optional extended spindle
- Finish SSS - US32D, PSS - Us32

ASSA ABLOY Pull Handles are manufactured using the finest material to incorporate the maximum standards in style, durability, finish and design.

All dimensions are in mm
