Overhead sectional door for modern industrial efficiency

The ASSA ABLOY 1140PL Overhead sectional door, with it's modern, clean design, is one of the most stable and well insulated overhead doors on the market. It is an overhead sectional door, suitable for all types of buildings, with regard to both function and appearance. High flexibility makes it possible to install this door in almost every type of building.

Each part of the ASSA ABLOY OH11140PL overhead sectional door is built to the highest standards give you a door that looks better and performs longer. The door slides up under the roof when opened, allowing free space around the door opening and leaving the door opening completely free. The door is made of insulated panels to provide minimal thermal transmittance, which reduces energy cost.

Choosing from three standard outdoor and inside colors, available with different window configurations, sliding bolt, pass doors and etc. The ASSA ABLOY OH1140PL overhead sectional door is perfectly suited to every kind of industrial need.

Glazing

Windows can be installed on the door panel, which are rectangular windows with a maximum number of openings per meter. The windows are available in acrylic glass.

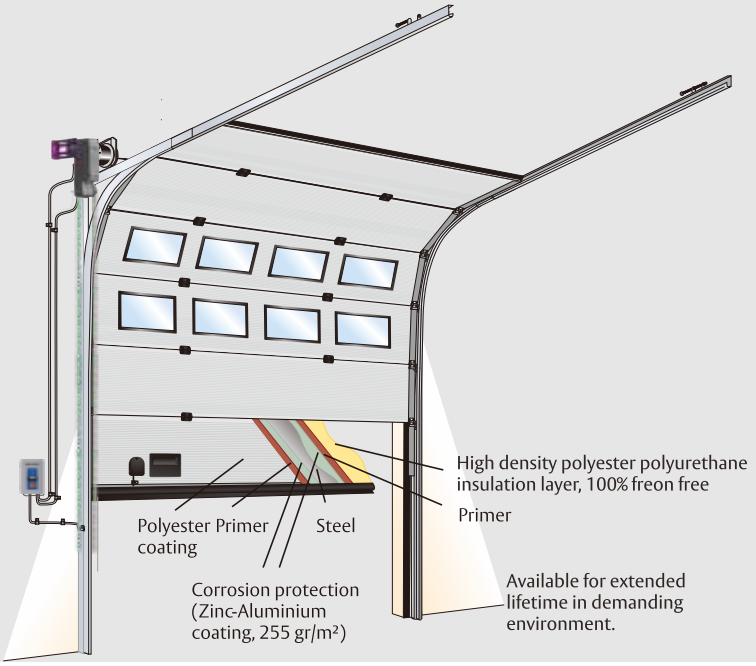

Standard colours

The steel ASSA ABLOY OH1140PL overhead sectional door is available in 3 pre-coated outside and inside the inside color are always follow the same color as outside for standard.
