Safeguard Timber Doorset

ASSA ABLOY

ASSA ABLOY Security Doors will protect people, property and assets within any commercial building. Safeguard Security Doors offer maximum protection from theft, vandalism and attack, and are available in a variety of specifications to suit all levels of security risk.

Our security doors have been designed and tested to withstand any form of assault, including prolonged attack with power tools, to satisfy registration of our products with Secured by Design and in accordance with British and European standards, including the UK Loss Prevention Council's LPS 1175 Standard.

Safeguard

Safeguard Security Doors offer maximum protection from theft, vandalism and attack, and are available in a variety of specifications to suit all levels of security risk.

Our security doors have been designed to satisfy registration of our products with Secured by Design and in accordance with British and European standards, including the UK Loss Prevention Council's LPS 1175 Standard.

Application:

- The Cromwell timber security doorset has been approved for UK Government Use.
- Cromwell doors provide the required security whilst retaining the aesthetic's and practical benefits of a timber door and frame.

Specification:

- Please contact CPNI for options and further information.

Finish:

- A wide variety of decorative finishes are available that can provide a discrete appearance to blend in with other non security rated doors. These include paint finishes, applied laminates, various wood veneers and decorative panels.

Standards:

- All Cromwell doorsets are designed, manufactured and installed to the criteria required by ISO 9001 and independently tested for security performance.

Application:

- The Fenwick timber security doorset has been approved for UK Government Use.
- Fenwick doors provide the required security whilst retaining the aesthetic's and practical benefits of a timber door and frame.

Specification:

- Please contact CPNI for options and further information.

Finish:

- A wide variety of decorative finishes are available that can provide a discrete appearance to blend in with other non security rated doors. These include paint finishes, applied laminates, various wood veneers and decorative panels.

Standards:

- All Fenwick doorsets are designed, manufactured and installed to the criteria required by ISO 9001 and independently tested for security performance.

Application:

- The Bowden timber security doorset has been approved for UK Government Use.
- Bowden doors provide the required security whilst retaining the aesthetic's and practical benefits of a timber door and frame.

Specification:

- Please contact CPNI for options and further information.

Finish:

- A wide variety of decorative finishes are available that can provide a discrete appearance to blend in with other non security rated doors. These include paint finishes, applied laminates, various wood veneers and decorative panels.

Standards:

- All Bowden doorsets are designed, manufactured and installed to the criteria required by ISO 9001 and independently tested for security performance.

Certified Security

ASSA ABLOY

Safeguard Timber Doors are approved by many governmental and military organisations to provide maximum security for high profile buildings at risk of attack. Each Safeguard doorset offers advanced protection in discreet designs that will not attract unwanted attention.

Application:

Safeguard Trenchard doors are tested and certified to **LPS 1175 SR3**.

Safeguard Trenchard doors are designed for a range of applications where a high standard of security is required, whilst still providing discreet attractive appearance.

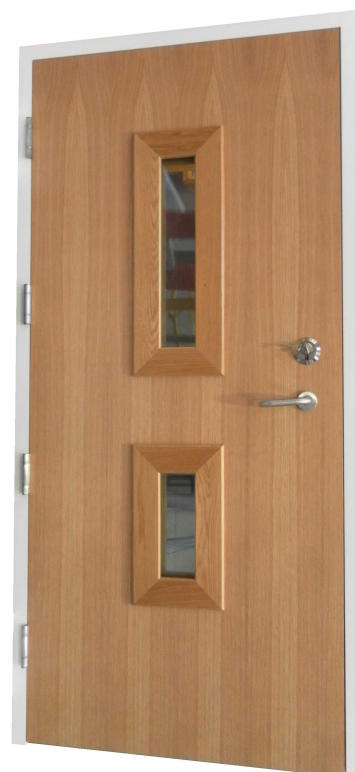

Specification:

- Certified security to LPS1175 SR3
- Single and double leaf configuration
- Inward and outward opening
- Comprehensive range of locking systems
- Vision panels available
- Fire rating available up to FD60

Finish:

All Trenchard Safeguard doors and frames are manufactured from high quality hardwoods and are sealed and protected in the factory. A wide variety of decorative finishes that can provide a discrete appearance to blend in with other non security rated doors are available. These include paint finishes, applied laminates, various wood veneers and decorative panels. Please contact us on 0044 28 9266 2200 for further options.
